# Terms And Conditions

**Terms of Payment:** All product shipped from VAN ISLE WATER will be C.O.D. unless prior credit approval is obtained. C.O.D. shipments will be VISA, MC, or Certified Cheque prior to shipping. Qualified accounts have net 30 days from time of order.

**Prices & Taxes:** Catalogue is "List" pricing in Canadian dollars. "List" pricing is only suggested retail pricing and not actual. Actual retail pricing varies by product and region. All prices are as of date of printing and are subject to change without notice. Van Isle Water is not responsible for printing errors. Buyer shall pay all applicable taxes.

**Freight Policy:** Freight is prepaid on \$1000 net pre tax value for net 30 account customers. Items requiring special handling such as dangerous goods and oversize products are designated by a "  " symbol and are exclusive of prepaid freight. Van Isle Water will use the carrier of its choice.

**Freight Claims:** Van Isle Water does not assume responsibility for freight damage. All freight damage and shipping discrepancies must be claimed within 48 hours of receipt of goods. Customer must inspect shipments for damage and make claim with carrier.

**Short Shipment:** Van Isle Water must be notified of any short shipments within 48 hours of receipt of goods with copy of carrier waybill and customer count.

**Return Goods:** Return goods must be authorized by Van Isle Water. A copy of original invoice must accompany all returns. All returns must be shipped prepaid freight and are subject to a restocking fee up to 25%. Product damaged in freight return will not be accepted. Credit will be issued to account for future purchases. No returns after 30 days. Special order items are not returnable.

**Warranty:** All defective items within the manufactures warranty period must be authorized first and returned to Van Isle Water with a RGA#. Customer is responsible for return of item(s) and all freight costs. Item(s) will either be replaced or repaired at Van Isle Water's discretion. Item(s) sent back must be accompanied with customer proof of purchase and retail customer receipt. Shipment of replaced or repaired item will be responsibility of customer. Replacement or repaired items may be added to a prepaid shipping order.

## FOUNTAIN PUMPS

Atlantic's Fountain Pumps offer everything you want in a small pump line, with large, sturdy pre-filters, integrated flow controls, versatile base plates and small diameter power plugs. Sized to fit even the smallest applications, these pumps still deliver big performance, with higher head heights and lower wattages than the competition. Trust Atlantic for all your fountain pump needs!

- Integrated flow adjustment.
- Includes 1/2" and 3/4" outlet fitting.
- Integrated Flow Adjustment.
- **Limited Warranty:** 1 year.

Model	GPH	Watts	Disc.	Cord	Case	Item #	List	GPH Flow @ Feet of Head

## FOUNTAIN PUMPS

Oase Fountain Pumps are ideal for small bubbling stones, statuary, and decorative fountains of any type. Their compact sizes make it easy to install in small crevices. They can operate in as little as 1/2" of water depth. The output flow rate can be adjusted easily with a front facing mechanical slider.

- Smaller power cord plug size for easier setup.
- Quiet operation.
- Integrated Flow Adjustment
- **Limited Warranty:** 3 year.

## AQUARIUS FOUNTAIN SET ECO

**Water feature set with controllable second outlet and three nozzle choices.**

- Compact fountain set provides multiple decorative display options.
- Comes with 3 spray heads and adjustable diverter, making it perfect for fountains and water gardens.
- Energy efficient motors keeps operating costs to a minimum, with proprietary grounding plate for unparalleled safety.
- Easy to install, with telescopic pipe extension for water depths from 10" to 24".
- Integrated swivel head makes it simple to correctly align the display nozzle even in water features with uneven bottoms or shelves.
- Valved diverter can power an optional decorative feature using 1/2" to 1" pipe.
- Thermal protection shuts pump off if pump overheats, preventing damage.
- Ribbed intake screen protects pump and keeps debris from blocking water flow.

Model	Max Flow	Watts	Max Head	Item #	List

## FILTRAL

A multi-functional, compact, pond technology solution designed for preformed and small ponds. This compact filter unit with integrated UV and pump guarantees clear, healthy pond water.

- Includes nozzle set.
- **Limited Warranty:** 2 years.
- Hose connection : 1/2" MIPT.
- 16' power cord.

Max. Pond (no fish)	Max. Flow	Max. Head	UV	Watts	Item #	List

1,300	580 gph	7.5'	9 W	52	<a href="#">OAS-42749</a>	

## FILTRAL UVC

Versatile, economical, all-in-one units integrate pump, filtration, circulation, aeration and decorative elements, in your choice of three sizes.

- Combines mechanical, biological and UV filtration with multiple nozzles and aeration (800 & 1600 only) for water features up to 1600 gallons.
- Easy to install, easy to maintain and provide crystal clear water, guaranteed.
- Pivoting telescoping nozzle accommodates uneven surfaces, while built-in flow control and diverter valve can run an optional small secondary water feature.
- Integrated grounding plate protects entire water feature with unparalleled safety

## WATERFALL PUMPS

Sized to fit even the smallest applications, these pumps still deliver big performance, with higher head heights and lower wattages than the competition.

- Energy efficient motor, saves power – and money – in operation.
- Grounding plate provides unparalleled protection against electrical hazards in your pond.
- Uncompromisingly reliable: high cleaning force, it pumps pond water and coarse debris particles, up to 1/16" into a filter.
- 20' power cord on all models.
- **Limited Warranty:** 3 year.

## SWIMSKIM

The SwimSkim floating in-pond skimmer is the ideal addition or retrofit to any pond. In addition to removing leaves and dust from the water surface, the SwimSkim also improves water quality by increasing water circulation and air injection. Designed for ponds up to 270' sq/ft.

- Easy to install.
- Simple to maintain.
- Air injection 41 lpm.
- **Limited Warranty:** 2 year.

GPH	Watts	Cord	W x D x H	Item #	List
800	40	15'	12" x 13" x 10"	<a href="#">OAS-50040</a>	

## TRITON UNIVERSAL CHECK VALVE

The "swing style" Triton Check Valve features a 2" socket union on the inlet, 2" or 1-1/2" socket unions for the outlet, a molded in 90 elbow, and a slim design that allows clearance when installed with direct drive pumps. Works with all 1-1/2" and 2" pump outlets.

- Includes insert adapters for 1"-1 1/2" non-kink.

Inlet	Outlet	Item #	List
2" Socket	1.5" or 2" Socket	<a href="#">ATL-TR215CV</a>	

## TIDALWAVE TT

The TT-Series line are specifically designed to be clog-resistant and hard water-tolerant, making them the perfect choice for waterfalls & filters.

- Large threaded inlet and outlet for less restriction and greater flows.
- Quarter-turn volute provides access to impeller without the use of tools.
- Heavy-duty pre-filter locks in place. Large openings and increased surface area resist clogging.
- Three vane hybrid impeller improves flows and passes solids easily.
- All models feature 20' power cord.
- **Limited Warranty:** 3 years.

## VARIABLE SPEED CONTROLLER

Vary the output of your asynchronous pumps wirelessly by remote control! The VSC allows you to set both on and off times as well as drop to 25% of the total flow, in 10 level adjustments.

- Digital read out displays time of day and on/off times.
- Rugged Weatherproof housing.
- **Limited Warranty:** 3 years.
- 6' power cord.
- Works with Atlantic TT & TW series pumps up to 800 watts.
- Multiple units can be synchronized to one remote.

Item#	List
ATL-TWVSC	

Can be controlled via a smartphone using Tidal Wave VSC App.

## AQUAMAX ECO CLASSIC

The Aquamax Eco Classic offers you the opportunity to purchase the world renowned Aquamax at a fantastic price. These pumps are ideal for feeding filters and waterfalls.

- Low profile design.
- Quiet operation even when run in-line.
- Solids handling- can handle coarse debris 1/3" in size.
- "Environmental Function Control" provides built in dry run protection.
- 20' power cord on all models.
- **Limited Warranty:** 3 years.

## WATER JET LIGHTING

- Luminous, coloured, laminar water arches for a special charm in the garden.
- Variations of jet lengths, jet height, and RGB colours are played back in programs.
- The effects can be conveniently selected via remote control from a free distance of up to 250'.
- The water jet angle can be individually adjusted.
- Your favorite colour of the water arch can be set easily.
- Maximum jet length 6', maximum jet height 3'.
- "Plug'n Spray" principle enables easy installation.
- Low energy consumption.
- Included in the scope of delivery: 2-unit set Water Jet Lighting, pump, external control unit, transformer and cable.
- **Limited Warranty:** 3 years.

Light Colour	Watts	Item #	List
RGB	41	<a href="#">OAS-50355</a>	

## WATER QUINTET FOUNTAIN

- High quality water feature with five varying fountains, including LED lighting.
- "Plug'n Spray" principle: Immediately ready for use and easy connection.
- Features pre-programmed effects with variations in fountain height (12" - 55") and light intensity can be played back in permanently set programs.
- The programs can be conveniently selected via remote control from a distance of up to 250'.
- Included in the scope of delivery: 5 pumps / nozzles, external control unit, transformer and cables.
- Flexible setup on a wide variety of substrates.
- Low energy consumption.
- **Limited Warranty:** 3 years.

	Watts	Item #	List
Quintet	50	<a href="#">OAS-50354</a>	

## QUINTET INSTALL TIP:

With most installations of the Water Quintet one will need to construct a reservoir to store the water. You can use Atlantic Eco-Blox located on Page 26.

## FLOATING FOUNTAIN W/ LIGHTS

A beautiful water accent that aerates and decorates a large body of water.

- For ponds up to 2,000 sq/ft.
- Aerates and decorates large ponds.
- 3 fountainheads included (Trumpet, Single-Tier, & 3-Tier).
- 3 - 1 watt, LED lights with dusk-to-dawn sensor.
- 150' mooring line included.
- Minimum operating depth of 2.5'.
- **Limited Warranty:** 3 years.

LED Lights	Voltage	Watts	Cord	Item #	List
3 - 1 watt	120	130	50'	<a href="#">OAS-45383</a>	

See Page 43 for More Info

### TYPHOON AIR KIT

Typhoon Air Pumps are easily rebuildable and exceptionally efficient.

- TAKIT0400 Includes: TA400 air pump, 20' x 1/4" flexible tubing, check valve and 4" airstone.
- TAKIT0800 Includes: TA800 air pump, (2) 20' x 1/4" flexible tubing, (2) check valves and (2) 4" airstones.
- Air pumps are completely weatherproof.
- **Limited Warranty:** 3 years.

Air Flow	Max.	Pond Size			
LPM	Depth	Watts	Gallons	Item #	List
6.5	5'	4.5	1,000	<a href="#">ATL-TAKIT0400</a>	
13	5'	9	2,000	<a href="#">ATL-TAKIT0800</a>	

### TYPHOON PUMP

Atlantic's Typhoon Air Pumps feature weatherproof, continuous duty diaphragm compressors specifically designed for year-round usage.

- Easy to clean air filter reduces particulates for motor longevity.
- Aluminum housing radiates and reduces heat to extend diaphragm life.
- **Limited Warranty:** 3 years.

Pump	Watts	Max Depth	Item #	List
TA1800	25	7'	<a href="#">ATL-TA1800</a>	
TA3600	35	11'	<a href="#">ATL-TA3600</a>	

### BLUE DIAMOND AIR PUMPS

Enviro linear air blowers/aerators are designed for use in residential aerobic treatment units/ATU's.

- Specially formulated diaphragm material for extended life.
- Energy efficient motors low power consumption.
- Robust and company construction – weatherproof.

Air Flow	Max. Diffuser	Pond Size			
LPM	Depth	Watts	Gallons	Item #	List
60	4.5'	55	8,000	<a href="#">BD-ET60</a>

120	6.5'	90	24,000	<a href="#">BD-ET120</a>	

### AQUAOXY AIR PUMP

Check valves enable operation below the water surface level.

- Includes 2 air diffusers and 15' tubing.
- Weather resistant housing.
- **Limited Warranty:** 2 years.

LPM	Max Depth	Watts	Cord	Item#	List
33	8'	25	10'	<a href="#">OAS-50041</a>	

### ROBUST-AIRE AERATION SYSTEMS

\*Large Cabinet System

- No electricity in the water- no restrictions on swimming, boating, or fishing while the unit is operating.
- Easy to maintain. Most maintenance and inspection is performed from shore at the compressor enclosure.
- Energy efficient operation. Robust-Aire circulates the most water with the least energy expended. Robust-Aire™ diffusers produce a superior amount of water flow, exceeding other models by 10 to 40 percent.
- Remote installation. Electrical access near the pond may not be feasible or you simply may want to locate the system away from the pond setting. Air can be delivered to the system from 1/4 mile away.

**Each Kit Contains**

- High Efficiency Piston Compressor.
- Sure-Sink Weighted Tubing.
- Air Diffuser Assembly(s).
- Fittings and Clamps.
- Available in 110 or 240 Volt.

Surface Acres**	# Diffuser Assemblies	3/8" Weighted Tubing	Amps	Item #	List
1.5	1	100'	3.6/1.8	KAS-RA1NC	
3	2	200'	5.4-3.0	KAS-RA2NC	
14.5	3	300'	5.4-3.0	KAS-RA3NC	
8	4	400'	10.9/6	KAS-RA4NC	
10	5	500'	10.9/6	KAS-RA5NC	
11	6	600'	10.9/6	KAS-RA6NC	
				Air Diffuser Only	KAS-772100
				100'-3/8" Weighted Aeration Tubing	KAS-WT100

\*Cabinet (Post- Mount, Large) are optional but compressor needs to be kept in a weather proof ventilated enclosure.

\*\*Robust-Air works most efficiently at depths of 8' and deeper.

**See Page 44 for More Info**

8	12	<a href="#">BD-M09008</a>	
12	12	<a href="#">BD-M09007</a>	

## KASCO SMALL DIFFUSER W/ WEIGHTED BASE

Made for shallow water applications, as a replacement or addition to Bantam aeration systems or small diffused aeration system.

Item #	List
<a href="#">KAS-772300</a>	

## OASE OXYTEX DIFFUSER

This unique air diffuser provides the dual benefit of superior air dispersal (oxygenation) and increased surface area (beneficial bacteria growth).

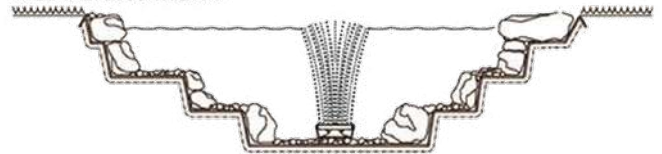

- 9" Dia. x 10" Tall.

Item #	List
<a href="#">OAS-51075</a>	

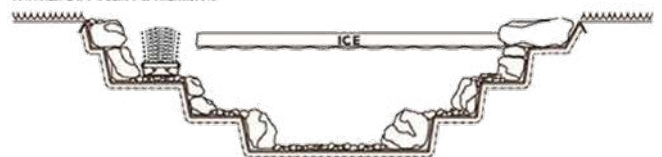

## Seasonal Diffuser Placement in a Typical Pond

SUMMER DIFFUSER PLACEMENT:

WINTER DIFFUSER PLACEMENT:

## 1/2" BUBBLER HOSE

Used in both ponds and waste water applications.

- Most efficient in 5'-8' lengths.
- Uses standard poly tubing fittings.
- Fits 1/2" tube fittings.
- 0.5 CFM flow rate.

Type	Item #	List
Per Foot	<a href="#">MDR-750</a>	
200' Roll	MDR-750R	

## WEIGHTED AERATION TUBING

3/8" - Designed to run from compressor to diffusers.

Type	Item #	List
Per Foot	<a href="#">ATL-TPT38</a>	
100' Roll	<a href="#">ATL-TPT38100</a>	

## SILICONE AIR TUBING

Fits 3/16" barb fittings.

Length	Item #	List
100 m / 328'	<a href="#">TUB-SAT100</a>	

## AIR CHECK VALVE

- 3/16" outlet fits silicone air tubing.

Case	Item #	List
12	<a href="#">BD-V01300</a>	

## EASY GARDEN CONTROL THE SMART REVOLUTION

With **OASE EASY GARDEN CONTROL (EGC)** the age begins in which all important functions in and on the pond or in the garden can be centrally controlled via the home network. It enables convenient operation and control of the connected devices with an app via smart phone or tablet.

### AQUARIUS ECO EXPERT

**Brushless DC pump for waterfalls, large decorative fountains, & basalt columns.**

- Powerful, energy efficient pumps for demanding filter systems and fountains.
- Next generation pumps for powerful and economical water delivery.
- Robust stainless steel intake screen passes debris particles up to 3/16".
- Frost protection safeguards pump from freeze damage down to -20°C.
- Integrated grounding plate for unparalleled safety.
- Automatically shuts off the pump in run dry conditions to prevent motor damage.
- Can be regulated and operated remotely either by Eco Control or EGC Controller Cloud.
- Submersed or inline installation in a variety of water types, including chlorinated pool and salt water.
- Dynamic Function Control offers 1 pre-programmed scene, alternating fountain heights, without additional controller; when connected to EGC Dynamic Function Control offers 11 additional pre-programmed scenes.

Max. Flow	Volts	Amps	Watts	Outlet	Max. Head	Cord	Warranty	Item #	List
7300 gph	220-240	2	440	2"	32.8'	33'	5 Year	<a href="#">OAS-57964</a>	
11500 gph	220-240	3.5	700	2"	34.5'	33'	5 Year	<a href="#">OAS-57978</a>	

### AQUAMAX ECO EXPERT

**Powerful, energy-efficient brushless DC filtration pump for large installations.**

- Powerful, energy efficient filtration pumps for demanding filter systems and large waterfalls.
- Next generation pumps suited for extremely powerful and economical water delivery.
- Robust stainless steel intake screen passes debris particles up to 7/16".
- Frost protection safeguards pump from freeze damage down to -20°C.
- Integrated Environmental Function Control automatically shuts off the pump in run dry conditions to prevent motor damage.
- Patented Seasonal Flow Control slows water flow, lowers head height and reduces wattage when temperatures drop in response to lower cool season demand, for up to 50% energy savings (optional).
- Submersed or inline installation in a variety of water types, including chlorinated pool and salt water.
- All functions be regulated and operated remotely by Eco Control and EGC Cloud Controllers.

## PROFICLEAR PREMIUM COMPACT

**Fully automatic, compact-powerful alternative for stocked koi ponds.**

- Drum filters utilize a rotating screen to remove debris and moving bed filtration to strip ammonia and nitrites from the water.
- Fully automatic filter system that offers hands-free operation of even fully stocked koi ponds.
- Pump-fed, flow-through drum filter provides effective cleaning and polishing of water down to 80 microns.
- Drum is fully self-cleaning with a built-in 29 psi high-pressure cleaning pump and automatic 4" waste discharge outlet.
- Moving Bed System with 40 liters of Hel-X Bio-media provides optimal biological filtration capable of decomposing up to 10 oz. of food waste per day.
- Filter capacity can be upgraded by adding an additional 20 liters of Hel-X Bio-media.
- Micro control system offers a choice of manual cleaning, time interval cleaning or full automatic cleaning via sensor.
- Can be buried up to UVC mounts for maximum versatility in filter placement near existing electrical source.
- Pre-installed insulation on the lid ensures quiet operation during cleaning cycles.
- Digital temperature display provides accurate water temperatures for seasonal maintenance.
- Add an optional Bitron C UVC clarifier to either ProfiClear Premium filter system for enhanced clarity and cleaner water.
- Integrated linear air stones provide extra oxygen in the module with included connection kit for AquaOxy 450 (not included).
- Fully control your ProfiClear Compact-M or -L with the Easy Garden Control system from anywhere in the world.

## EGC CONTROLLER CLOUD

**The heart of the Easy Garden Control (EGC) System.**

- Innovative controller for networking EGC devices - controlled via WiFi device.
- Includes 6' EGC connection cable, 6' power cable, end resistor and 110V outdoor transformer, ground stake, and wall-mounting anchor.
- Complete control from anywhere in the world.

Input	Watts	WLAN Range	Warranty	Item #	List
12 volt AC	6	260 ft	3-Year	<a href="#">OAS-72380</a>	

## PROFILUX GARDEN LED RGB

**Simple & economical; Design a colourful sea of LED light.**

- Underwater LED spotlight with RGB illumination effects.
- Suitable for use in and out of the water to a water depth of 13 ft.
- Ideal for illuminating fountains, ponds, and garden landscapes.
- Fast and easy installation. Requires connection to an EGC network.

Light Flux	Beam Angle	Watts	Cord	Item #	List
213 lm	25 degrees	6	16.5 ft	<a href="#">OAS-72377</a>	
<b>Set of 3 - ProfiLux Garden LED RGB Kit</b>					<a href="#">OAS-72376</a>

## PROFILUX GARDEN LED CONTROLLER

Allows the easy connection and control of up to 4 Oase ProfiLux Garden LED RGB Spotlights.

Item #	List
<a href="#">OAS-72378</a>	

## EGC CABLE / CABLE CONNECTOR

Description	Item #	List
2.5 meter Cable	<a href="#">OAS-72381</a>

10 meter Cable	<a href="#">OAS-72384</a>	
Cable Connector	<a href="#">OAS-72385</a>	

## BIOPRESS UV PRESSURE FILTER

Compact pressure filter with built-in UV clarifier and cleaning mechanism for small to medium ponds. The BioPress UVC pressure filter incorporates a handle that allows you to compress the filter pads clearing the debris without opening the lid.

- Max Pressure: 7 PSI.
- 1 1/2" MIPT connection.
- 3/4" to 1 1/2" Tubing connections.
- 1" connection on 1000 model.
- **Limited Warranty: 2 years.**

Model	c/w	Max. Pond (no fish)	Recommended Flow	Cord Length	Item #	List
1000	7W UV	1,000	1,050 gph Max.		<a href="#">OAS-45451</a>	
1600	9W UV	1,600	2,000 gph Max.	10'	<a href="#">OAS-40348</a>	
2400	9W UV	2,400	2,120 gph Max.		<a href="#">OAS-45452</a>	

## FILTOCLEAR PRO

The Filtoclear Pro pressure filters combine the convenient cleaning mechanism of the first generation with substantially larger UVs. These larger UVs allow the Filtoclear Pro to filter larger ponds and water gardens with greatly reduced maintenance.

- New backwash feature allows for rinsing and flushing of the UVs quartz sleeve.
- Includes fittings for metric non-kink and 2" PVC flex.
- 2" MIPT connections.
- Most efficient filtration when paired with an Aquamax pump.
- Max Pressure: 7 PSI.
- **Limited Warranty: 2 years.**

Model	c/w	Max. Pond (no fish)	Flow	Cord Length	Item #	List
3000	18W UV	3,000	2,000 gph Max.		<a href="#">OAS-40346</a>	
4000	24W UV	4,200	3,000 gph Max.	15'	<a href="#">OAS-56425</a>	
8000	55W UV	8,000	4,000 gph Max.		<a href="#">OAS-56435</a>	

## VITRONIC UV

OASE's Vitronic UVC provide the best of both worlds, OASE quality at a mid range price.

The Vitronic clears water by eliminating suspended algae (green water) as well as eliminating pathogens and bacteria helping fish health and improving water quality. Can be integrated into an existing system or attached to both the Biosmart 5000 & 10000.

- Hose connection : 1" - 1 1/2".
- Max Pressure: 8 PSI.
- **Limited Warranty: 2 years.**

Vitronic	Max. Pond (no fish)	Flow	Watts	Cord	Item #	List
9	2,500	500 gph Max.	10	10'	<a href="#">OAS-45427</a>

36	10,000	1,585 gph Max.	36	16'	<a href="#">OAS-40350</a>	

## BIOSMART

The BioSmart is a multi-stage mechanical and biological filtration system in a compact package, designed for medium sized ponds or for watergardens with a moderate fish load.

- Built in venturis on inlets.
- Gravity discharge (75 mm).
- Thermometer included.
- Simple to maintain and clean.
- Service indicators built in.
- **Limited Warranty: 3 years.**

Model	L x W x H	Max. Pond (no fish)	Flow	Item #	List
5000	15" x 22 1/4" x 16 1/4"	4,500	1,500 gph Max.	<a href="#">OAS-56929</a>	
10000	30 1/2" x 22 1/4" x 16 1/4"	9,000	2,200 gph Max.	<a href="#">OAS-56930</a>	

## BIOTEC SCREENMATIC2

These innovative filters offers automatic debris separation using the self-cleaning screen, which separates coarse debris and deposits it in the cleaning tray for easy removal. The BioTec ScreenMatic<sup>2</sup> now has a double-sealed motor and a reinforced screen for an extended service life. The larger sludge basket has been redesigned for greater convenience in the collection and removal of large debris - resulting in reduced contamination of pond water - it prevents sludge water from leaking back into the filter chamber. The BioTec ScreenMatic<sup>2</sup> boasts a bottom drain for easy flushing of the filter.

- New foam design and optimized water level control ensure longer filter service life, improved filtration, and reduced maintenance.
- Intelligent cleaning sensors w/ LED indicator detect the pollutant level and automatically activate the screen.
- Optimized water distributors ensure an ideal water flow over a broad range of pumps- no clogging.
- Rubberized separator lip separates out large debris for better filtration.
- Includes a brush for easy cleaning of the belt filter.
- Features storm-safe fastening clips on each lid ensure safety during heavy winds.
- Limited Warranty: 3 years.

Biotec	L x W x H	Max. Pond (no fish)	Flow	Item #	List
18	31" x 23" x 21"	18,000	4,000 gph Max.	<a href="#">OAS-42975</a>

38	47" x 32" x 30"	38,000	4,623 gph Max.	OAS-42976	

## BITRON-C UV

The UVC technology in Bitron C clarifiers help ensure consistently clear and healthy water by flocculating microscopic green algae that are the main contributors to green and unsightly pond water. Once flocculated, the algae clumps are removed from circulation by the filter.

All Bitron C clarifiers feature bypass technology for optimal water flow regulation past the UV for maximum UV efficiency and built-in automatic glass cleaning.

- Built in bypass valves.
- Specifically designed for use with the Biotec & Biosmart range of gravity filters.
- Built in rotating quartz sleeve de-fouler.
- **Limited Warranty: 2 years.**

Model	Max. Pond (no fish)	Flow	Watts	Cord	Item #	List

110C	30,000	3,500 gph (min) to 10,000 gph (max)	110		<a href="#">OAS-57101</a>	

## SMART UV

Designed for pond keepers who appreciate quality and performance but are restricted for space. The SMART UV features a space saving 4" diameter body constructed of UV resistant plastic with a lifetime warranty. Features include T5-style long lasting, low pressure lamps (13 month useful life), protected, "on the cord" power supply and inlets/outlets available with 1 1/2" unions. Each UV is UL and cUL listed.

Watts	Maximum Pond Size	Water Flow Rate Min. / Max.	Lgth x Dia (inches)	Inlet	Cord	Item #	List
18	1,100 Gal	219 GPH / 356 GPH	22" x 4"	1 1/2" Union	16 ft.	<a href="#">PAE-EU18</a>	
25	1,600 Gal	332 GPH / 554 GPH	30" x 4"	1 1/2" Union		<a href="#">PAE-EU25</a>	
40	2,900 Gal	589 GPH / 983 GPH	44" x 4"	1 1/2" Union		<a href="#">PAE-EU40</a>	

\*Life time 4 body warranty on manufacturer's defects and UV deterioration. \*One year warranty on Ballast & 90 days on Lamp.

\*Suggested flow rates are based on "end of lamp's useful life" performance (80% power). \*Mounting clamp not included.

## HIGH OUTPUT UV

HO UVs feature T6 high output hard-quartz glass lamps that produce approximately twice the output watts when compared to standard low-pressure lamps, offering 13 months of continual operation.

Watts	Maximum Pond Size	Flow Rate Min. / Max.	L x D	Inlet	Cord	Item #	List

## SNORKEL VAULT & CAP

### A Field-Tested, Field-Proven System for Filtering Large Bodies of Water

The patented Snorkel Vault and Centipede Module were specifically designed to tackle any number of the common issues that plague large scale water features. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs.

- Highly effective at removing sediment (suspended solids) from the pond.
- Easily access collected sediment with the Snorkel Vault, reducing the need for costly and invasive dredging.
- Improves water clarity.
- Works on earth bottom and liner membrane ponds.
- Strips excess nutrients from the water column, reducing algae and the physical and chemical maintenance that goes along with removing algae.
- Easily retrofitted onto existing ponds.
- Create a waterfall and stream by designing the wetland filter system off the perimeter of the pond.

Item # List

[AQS-29064](#)

## LARGE CENTIPEDE MODULE

Item # List

[AQS-29065](#)

## SNORKEL VAULT EXTENSION

- For use when creating deeper basins. Also required when using the Aquascape PRO 10,000 or 12PN pump

Item # List

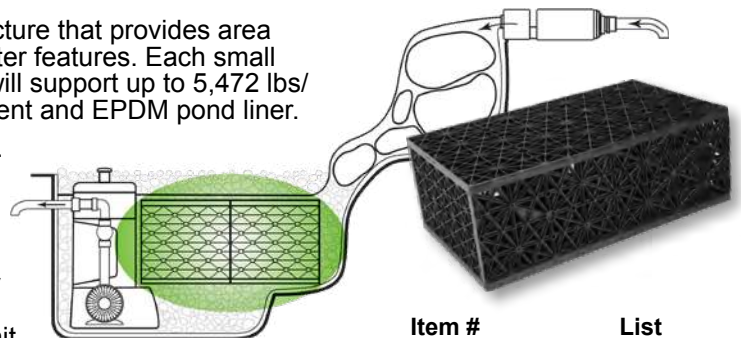

[AQS-29068](#)

## AQUABLOX SMALL WATER STORAGE MODULE

The AquaBlox D-Raintanks module is a lightweight structure that provides area or void space for various water storage projects and water features. Each small AquaBlox is able to hold up to 17 gallons of water and will support up to 5,472 lbs/ sq. ft. when properly installed with geotextile underlayment and EPDM pond liner.

- Over 3 times more water storage capacity than gravel.
- Extra water storage capacity means less time topping off reservoir due to evaporation.
- Easier to clean and less prone to clogging than traditional gravel basins
- The ability to hold more water per cubic foot allows for smaller reservoir footprint.
- Assembly is quick and easy, less than 1 minute per unit.
- **Size:** 26.5" L x 16" W x 9.5" H

Item # List

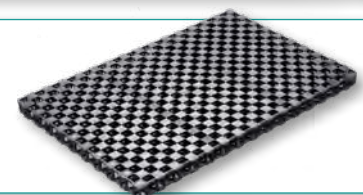

[AQS-29491](#)

## FLO-CELL 30MM DRAINAGE CELL

Facilitate adding roof top gardens and planter boxes to building construction without adding heavy aggregate as drainage. Provides a structurally strong structure, highly effective drainage, and lightweight properties.

Item # List

[AQS-94012](#)

## PONDLESS WATERFALL VAULT

The ideal pump vault for use in Pondless Waterfalls, rainwater harvesting systems, and more. Designed to integrate with Aquascape AquaBlox, effectively protecting pumps while making installation quick, precise, and simple. Its durable, rotationally-molded, rounded polyethylene shape maximizes structural strength, while its large interior fits a wide range of pump sizes up to 12,500 gallons per hour. The vault's extra-wide opening makes it easy to access the interior of the vault for pump maintenance. Includes a durable lid with a built-in water level inspection port, allowing the vault easily camouflaged and out of sight.

### VAULT EXTENSION

The Pondless Waterfall Vault Extension slides onto the Pondless Waterfall Vault increasing the height for deeper basins using the Large AquaBlox.

Description	L x W x H	Item #	List
Pondless Waterfall Vault	23" x 17" x 25.5"	<a href="#">AQS-49000</a>	
Vault Extension	16" x 16" x 9"	<a href="#">AQS-49001</a>	

## PROFESSIONAL GRADE POND KITS

Aquascape Pond Kits come complete with everything you need to build a beautiful ecosystem pond in any space. All necessary components are provided in a convenient, all-in-one kit that takes the guesswork out of purchasing individual components. The included skimmer and BioFalls filter provide efficient mechanical and biological filtration, allowing you to spend more time enjoying your pond. A complete LED lighting package is included to help bring the waterfall to life at night. The kit also includes the Automatic Dosing System for Ponds with water treatment, automatically adding water treatments to the pond when needed.

Model / Item #	Medium - 11' x 16' AQS-53034	Large - 21' x 26' AQS-53036

## SMALL PONDLESS WATERFALL KIT - 6' STREAM

Comes complete with everything you need to build a beautiful, one-of-a-kind, recirculating 6' waterfall and stream in any space, eliminating the guesswork and calculations when purchasing individual components. Connect the included energy-efficient pump to the Aquascape Smart Control App to schedule and adjust flow with your smartphone or tablet. An LED lighting package is included to bring your pond to life at night.

### Includes:

- Waterfall Spillway 22"
- Pondless Waterfall Vault
- (3) AquaBlox Small Water Storage Modules
- AquaSurge 2000-4000 Adjustable Flow Pond Pump w/ check valve assembly
- Automatic Dosing System for Fountains with 32 fl. oz. water treatment
- All necessary installation materials.

## SKIMMERS

Features heavy-duty components that stand up to years of use. Equipped with Super Flow weir doors, debris net and oversized brush panels that reduce maintenance. Lifetime Warranty.

- Sturdy removable top lid supports natural rock camouflage and foot traffic.
- Heavy-duty brush panel provides maximum surface area for mechanical filtration.
- Heavy-duty SS framed trap net for catching large debris.
- Rolled upper rim provides clean lines and incredible strength.
- Super Flow weir door for maximum surface cleaning.
- High-density polyethylene shell for the ultimate in durability.

## SATELLITE SKIMMER

Atlantic Pro-Series Satellite Skimmer draws and cleans water from hard-to-reach areas of a pond, the Satellite Skimmer is used in combination with (and plumbs into) the main pond skimmer.

- Installs inside or outside the pond.
- Use with Skimmer: PS7000 or PS15000.

Weir Size	GPH Flow	W x D x H	Item #	List
6"	3,000	13" x 13" x 25"	<a href="#">ATL-PS3000</a>	

## AQUASKIM IN-POND SKIMMER

Effectively removes leaves and other debris the pond surface. Automatically adjusts to a drop in water level (up to 6 in). Ideal retrofit for existing ponds.

- 1 1/2" MIPT connection.
- For use with Aquamax Eco Premium

Surface	Flow Range	Item #	List
270 sq/ft	1,600 - 4,700 GPH	<a href="#">OAS-57395</a>	

## FILTERFALLS

Professional water garden contractors demand the latest technology and highest quality. This product has all the attributes that make large-scale professional installations easy and successful.

- Heavy-duty removable top grate allows natural rock camouflage.
- Support bars add stability and reinforce top grate.
- Dual Bio-Tech filter mats for exceptional biological filtration.
- Sturdy bottom grate supports filter media.
- Rolled upper rim provides clean lines and incredible strength.
- Solid lip and molded-in inserts ensure a watertight liner attachment.
- Bottom chamber accepts bulkheads on all sides while bottom cones reduce surface area for more efficient back flushing.
- One-piece liner flange allows easy, leak-free attachment to pond liner.
- 1 1/2" (BF1600), 2" or 3" heavy-duty FIPT bulkheads for high flow rates.

Spillway	Max Flow	W x D x H	Item #	List

## FASTFALLS

These incredibly strong one-piece units feature an internal baffling system, support cones and a reinforced spillway. The 'inside the liner' design plus rear liner attachment simplifies installation and eliminates leaking. The top can be covered with rock, gravel, soil or mulch to blend seamlessly with the surrounding landscape.

- Raised front radius holds back any loose gravel, soil or mulch used to camouflage the top of the unit.
- Connection 19" & 26" - 2", 38" - 3".

- Designed to work with the CFBASINKIT12.

GPH Flow	Inlet	W x D x H	Item #	List
1200	(2) 1 1/2" FITP	26" x 27.5" x 10"	<a href="#">ATL-CB26R12</a>	

Copper Bowls lend themselves to a number of lighting options. Spotlights are a great way to accent water overflowing the 36" Copper Bowl or the concentrated flow from spillways. Inside the bowl, the submersible Ring Light creates rippling uplighting effects on overhanging trees or structures. Atlantic's unique Cord Seal Fitting makes lighting inside the bowl possible without a visible cord coming over the edge. The rubber fitting installs inside one of the two 1 1/2" FIPT inlets, and when tightened expands, sealing the cord and the inlet.

## SPILLWAY BOWL AND BASIN LANDSCAPE FOUNTAIN KIT

The perfect combination of products, providing a unique, easy-to-install kit that includes everything you need to create an impressive recirculating fountain. The included Spillway Bowl and Spillway Basin are constructed of durable GFRC and display a unique patina finish, providing a long-lasting, elegant, multi-step fountain ideal for any setting.

- Kit includes everything needed for installation.
- Creates an impressive multi-step fountain.
- Eliminates guesswork of selecting products individually.
- Simple design makes installation quick and easy.
- Includes spillway basin, spillway bowl, spillway stands, water basin, pump, and pipe
- Able to store up to 98 gallons of water,

## MEDIUM STACKED SLATE SPHERE LANDSCAPE FOUNTAIN KIT

A complete kit that makes it easy to add the relaxing sights and sounds of water to any location. The lightweight, durable fiber-resin composite fountain construction is built to last and provides the look and beauty of real rock. Water is pumped up through the center of the fountain and gracefully cascades over the stacked slate texture, creating an impressive effect.

- Complete kit creates an impressive, natural-looking fountain.
- Lightweight, durable fiber-resin composite construction, gives the appearance of real stone.
- Ideal for a wide variety of installation locations.
- AquaBasin® 45 fountain basin, plumbing, and Ultra 1500 Water Pump included.

Description	Item #	List
Medium Slate Sphere Kit	<a href="#">AQS-78290</a>	
Large Slate Sphere (Sphere Only)	<a href="#">AQS-78289</a>	

## PATIO PONDS

Aquascape Patio Ponds make it simple to have a complete water garden in any setting without ever having to touch a shovel. The integrated plant shelf and plumbing ports makes creating a beautifully planted container water garden easier than ever. The durable fiber-resin construction is lightweight and built to last. Aquascape Patio Ponds can be used to transform any outdoor or indoor environment and the natural finish allows the feature to blend easily into a wide variety of settings.

- Makes it simple to have a water garden in any setting.
- Integrated plant shelf and plumbing ports.
- Durable fiber-resin construction.
- Can be used indoors or outdoors.

## PUMP VAULTS

The heavy duty one piece design of Atlantic's Pump Vault can accommodate large pumps and flow rates up to 15,000 GPH. Features include large openings for pump access, cut lines for pump and flat panels for custom discharge and pipe extensions, plumbing applications.

- Stronger, high density polyethylene.
- Pre-drilled for 2" discharge pipe.

Max Pump Flow	Dimensions W x H	Item #	List
10,000	18" x 24"	<a href="#">ATL-PV1800</a>	
15,000	23" x 30"	<a href="#">ATL-PV2300</a>	
Extension 16.5" x 19.5"		<a href="#">ATL-PV18EXT</a>	
Extension 21.5" x 19.5"		<a href="#">ATL-PV23EXT</a>	

## OASIS PUMP VAULT

- Inset lid keeps gravel from falling into the vault.
- Pump discharge step fittings for 1½" & 2" pipe provided on both sides of the vault.
- Flat front panel installs tight against the Eco-Blox for a compact basin.
- Recessed pockets accept Triton 3-Way Diverter for use with the Eco-Rise.
- Flat panel for 1½" pipe for use with the Eco-Rise.
- 10" Access lid.

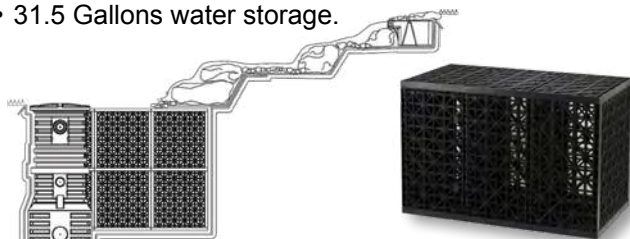

Max Pump Flow	Dimensions L x W x H	Item #	List
3,900 GPH	12" x 17" x 22 1/2"	<a href="#">ATL-PV1700</a>	

## ECO-BLOX

The redesigned Eco-Blox provides the same amount of storage, with improved strength and durability. The new triangle-shaped openings allow for greater water mobility while preventing solids from slipping through.

- Holds 3X more water than gravel pits.
- 8 panel construction for exceptional strength.
- 31.5 Gallons water storage.

Capacity	Dimensions L x W x H	Item #	List
31.5 gal	27.5" x 16" x 17.5"	<a href="#">ATL-ECOBLOX</a>	

## ECO-RISE

The extremely strong radial structure handles the weight of heavier statuary, vases and columns while providing a broad stable base over Eco-Blox reservoirs. The versatility of the Eco-Rise used in conjunction with Eco-Blox, PV1700 Pump Vault and Triton 3-Way Diverter allows for multiple features in any configuration above odd basin shapes, while keeping plumbing and flow adjustment topside for easy access.

Max Load	Max Plumbing Size	Dimensions L x W x H	Item #	List
3000 lbs	1 1/2"	20" x 20" x 3"	<a href="#">ATL-ECORISE</a>	

## TRITON 3 IONIZER

Atlantic's modular design is at the cutting edge of innovation, with tool-less, seamless integration with our award-winning Triton Check Valve! Safe for animals and plants and unaffected by sunlight and heat, this mineralized water maintains a residual ability to treat organics, greatly reducing the need for chemical treatments.

- Clears water without the use of harsh chemicals.
- Easily installed in any new or existing water feature.
- Level of mineralization is controlled by the LED panel.
- **Limited Warranty:** 3 years.
- Safe for fish and plants.
- Treats ponds up to 25,000 gallons.
- Includes outdoor transformer and copper test kit.

Can be controlled via a smartphone using Triton Ionizer App

## ATLANTIC WATER WALL SPILLWAYS

- Vertically oriented spillway simplifies the construction of water walls, weeping wall and rain curtains.
- Revolutionary concept of spillway as a decorative focal point eliminates the need for valances.
- Heavy-gauge 316 stainless steel construction ensures durability under even the harshest conditions.
- Bottom inlet accommodates wood-framed or masonry walls with facades up to 1 1/2" thick.
- 1 1/2" female threaded inlet and center rear bonding lug facilitate hidden in-wall plumbing connections.
- Flow Rate smooth (surfaces) 750-1,500 GPH
- Flow Rate smooth (rough) 1,500-3,000 GPH
- Stainless Steel or Copper Finish.
- Dimensions: 24"W x 5 1/4"D x 3 1/2"H
- 3 Year Warranty.

2400

3200 & 4600

## PRO SERIES FOUNTAIN BASIN

When they were introduced, Atlantic Fountain Basins were already the strongest and best-designed on the market, featuring deep plumbing channels on top of the basins, easy access pump chambers and external flow adjustment for convenient installation and maintenance. Now they're even better, with new internal buttressing cones for greater rigidity.

- 1) One-piece construction provides exceptional strength.
- 2) Built-in channels simplify installation, allowing the plumbing to be run on top of the basin.
- 3) Molded cones support the top panel.
- 4) Recessed pocket accepts Triton 3-Way Diverter (FB4600 only). Adjusting the water flow to multiple pieces has never been easier.
- 5) 1 1/2" conduit recesses allow for clean installation in surrounding masonry without notching.
- 6) Flat panel for optional Auto Fill installation.

Load	Dimensions	Capacity	Item #	List
200 lb	24" x 10"	20 gal	<a href="#">ATL-FB2400</a>	
600 lb	32" x 13"	32 gal	<a href="#">ATL-FB3200</a>	
1,200 lb	46" x 13"	67 gal	<a href="#">ATL-FB4600</a>	

## 3-WAY VALVE 1/2" MPT X 3/4" BARBED

- Ease of installation in many uses.
- 3 way valve allows you to control or shut-off the flow of each output with a simple knob.

Item #	List
<a href="#">AQS-88025</a>	

## TRITON 3 WAY DIVERTER

True 'ball' style valves with removable handles enable small flow adjustments to be made to each outlet independently.

Inlet	Outlet	Item #	List
1 1/2" FIPT	(3) 3/4" Insert	<a href="#">ATL-TR3WAY</a>	

## FOUNTAIN BASIN PLUMBING KIT

- Kits include everything needed, from valves to fittings, reducing installation time.
- Single and triple adjustment valves are located above water level, for greater comfort and convenience.

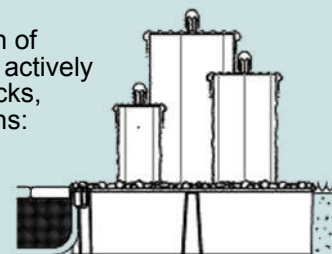

Kit	Pump Flow Size	Item #	List
1 Piece	200-500 GPH	<a href="#">ATL-FBKIT1</a>	
3 Piece	1200-2400 GPH	<a href="#">ATL-FBKIT3</a>	

## SIZING PUMPS FOR OVERFLOWING FOUNTAINS

Provide 10 - 15 gph per inch of active edge (where water is actively overflowing) for bubbling rocks, overflowing vases and basins:

10 - 15 gph x diameter in inches x 3.14

**For example:**

400 - 600 gph at 12" diameter,  
550 - 800 gph at 18", 750 - 1200 at 24"

## 3-WAY VALVE 3/4" MPT X 3/4" BARBED

- Suitable for the AquaBasin 30 & 45 Ultra 1100, 1500 and 2000 Installation Fittings
- 3 way valve allows you to control or shut-off the flow of each output with a simple knob.

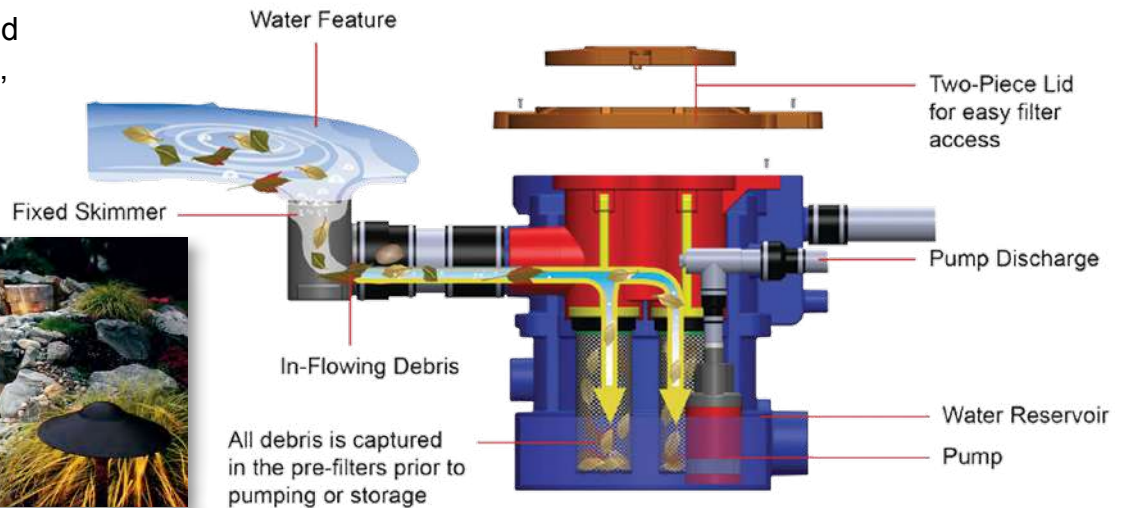

Item #	List
<a href="#">AQS-88026</a>	

## FILTRIFIC PROFESSIONAL WATER FEATURE PRODUCTS

### GOOD IDEAS • BETTER PRODUCTS • THE BEST RESULTS.™

- Can be placed away from the water feature.
- Virgin LLDPE poly construction.
- Front & Back Discharge Ports for two pumps.
- Bolt down integrated lid system.
- Convenient filter access.
- Built in overflow & auto-fill ports.
- Additional Capacity Port for expandable water containment.

For equipment and sizing information, visit [filtrific.com](http://filtrific.com)

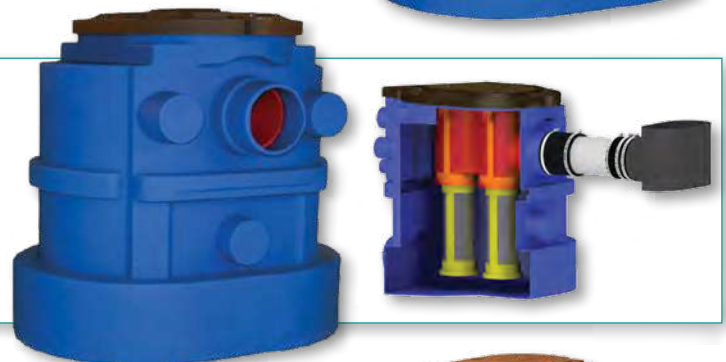

### T40F FILTER TANK

- Weight: 40 lbs.
- Dimensions: L: 29", W: 31.75", H: 24".
- A 4" intake port handles flow rates up to 80 GPM (4,800 GPH).
- 40 gallon Filter Tank (provides 20 gallons of water-in-motion reserve @ 9" residual water depth).

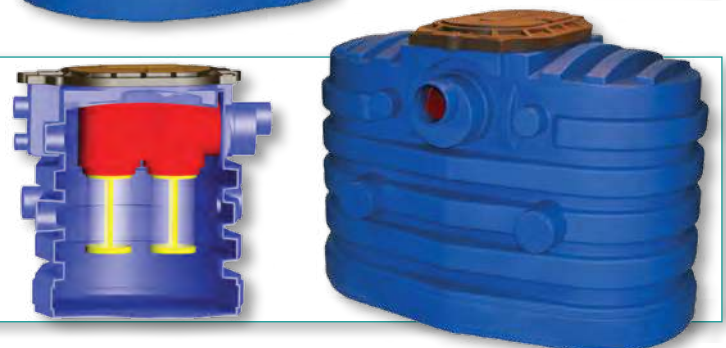

### T75F FILTER TANK

- Weight: 72 lbs.
- Dimensions: L: 35", W: 36", H: 32".
- A 6" intake port handles flow rates up to 200 GPM (12,000 GPH).
- 75 gallon Filter Tank (provides 40 gallons of water-in-motion reserve @ 9" residual water depth).

### T390F FILTER TANK

- Weight: 256 lbs.
- Dimensions: L: 70", W: 51.5", H: 48".
- 6" / 10" combination intake port handles flow rates up to 700 GPM (42,000 GPH).
- 390 gallon Filter Tank (provides 270 gallons of water-in-motion reserve @ 9" residual water depth).

## FILTRIFIC PROFESSIONAL WATER FEATURE PRODUCTS

**GOOD IDEAS • BETTER PRODUCTS • THE BEST RESULTS.™**

Filtrific® Expansion Tanks connect with Filter Tanks to capture the water-in-motion when the pump is turned off.

### T40SP SIDE-POD

- Dimensions: L: 32", W: 25", H: 20".
- Side-nesting Expansion Tank connects to either side of the T40F or T75F Filter Tank.
- Adds an additional 40 gallons of water-in-motion reserve when connected to the T75F Filter Tank.
- Only requires a two foot deep hole.
- A 4" connection on both sides for connecting to a Filter Tank or additional Side-Pod Tanks.
- Includes vented cap.

### T165XP XTENDED-POD

- Dimensions: L: 63", W: 38", H: 32".
- Four 6" coupling ports for connection to Filter Tanks or additional Expansion Tanks.
- One 3" overflow port.
- Adds an additional 140 gallons of water-in-motion reserves when connected to the T390F Filter Tank.
- Adds an additional 95 gallons of water-in-motion reserve when connected to the T75F Filter Tank.
- Reinforced domed lid can be covered by the landscape.
- Lid vented for pressure equalization to allow easy fill and pump down of stored water.
- Includes coupling pipe & fittings.

## COMPONENT PACKS

When it comes to sizing the plumbing for your project, Filtrific makes it easy by providing Component Packages containing appropriate Filter Baskets, skimmer and PVC fittings and rubber couplings. All of these components are available separately for custom applications.

### VANISHING COMPONENT PACKS

## STAINLESS STEEL WALL SKIMMERS

**S5** - For use with elevated pools, the S5 In-Wall Skimmer exits out of the bottom.

**S6** - In installations where the top of the Filter Tank is level with the pool edge, the S6 In-Wall Skimmer exits out the back for a same level connection with the Filter Tank.

- Rubber flap gasket adjusts with the water flow to minimize water noise.
- Strong narrow design for 10" or wider walls.
- Grounding connection provided.

GPM	Size	Disc.	Item #
60	13.5"L x 6.25"W x 5.75"H	3"	<a href="#">FIL-S5</a>

## SPOTLIGHTS

- Small remote drivers 18" from light decrease heat and pull through 1" sweeps.
- Submersible lights function equally well out of water and throughout the landscape.
- LED units inside lights are easily replaceable.
- Warm White matches 2800° Kelvin temperature of halogen and incandescent lighting.
- Spotlights feature 20' power cord and quick-connect plug for easy installation.
- Flat 2-wire cord on Warm White can be stripped and tied into existing systems.
- InfiColor Smart Module and App (not included) unlock the full potential of Color Changing lights.
- New Color Changing Lights connect to SOL Lighting with included plug adapter.

Input	Watts	Beam Angle	L x W	Item #	List
12 volt AC	2	45 degrees	2 1/8" x 1 1/8"	<a href="#">ATL-WWCS2</a>	
InfiColor	2	45 degrees	2 1/8" x 1 1/8"	<a href="#">ATL-CCCS2</a>	
12 volt AC	4	45 degrees	2 5/8" x 1 3/4"	<a href="#">ATL-WWCS4</a>	
InfiColor	4	45 degrees	2 5/8" x 1 3/4"	<a href="#">ATL-CCCS4</a>	

## FOUNTAIN LIGHTING

### LOW PROFILE RING LIGHT

- Epoxy-encased, cast brass light fits over 1 1/2" pipe and includes bushing for 1" applications.
- Warm White matches 2800° Kelvin color temperature of halogens and incandescents.
- Ring Lights feature 20' power cord and quick-connect plug for easy installation.
- Flat 2-wire cord on Warm White can be stripped and tied into existing systems.
- InfiColor Smart Module and App (not included) unlock the full potential of Color Changing lights.
- Color Changing Lights connect to SOL Lighting with included plug adapter.

Input	Watts	Beam Angle	Dimensions	Item #	List
12 volt AC	5	120 degrees	3 3/4" OD x 2" ID x 5/8" H	<a href="#">ATL-WWRL5</a>	
InfiColor	5	120 degrees	3 3/4" OD x 2" ID x 5/8" H	<a href="#">ATL-CCRL5</a>	

### FOUNTAIN LIGHT

- PVC body with bottom mounted cord fits into 1 1/2" socket fittings and 2" bore holes.
- Fountain Light accepts standard 3/4" rigid PVC or Kink-Free pipe.
- Warm White matches 2800° Kelvin color temperature of halogens and incandescents.
- Fountain Lights feature 20' power cord and quick-connect plug for easy installation.
- Flat 2-wire cord on Warm White can be stripped and tied into existing systems.
- InfiColor Smart Module and App (not included) unlock the full potential of Color Changing lights.
- Color Changing Lights connect to SOL Lighting with included plug adapter.

Input	Watts	Beam Angle	Dimensions	Item #	List
12 volt AC	2	120 degrees	2" W x 1 3/8" H	<a href="#">ATL-WWFL2</a>	
InfiColor	2	120 degrees	2" W x 1 3/8" H	<a href="#">ATL-CCFL2</a>	

## SPECIALTY LIGHTING

### SPOUT LIGHT

- Illuminates water flowing from Wall Spouts and bubbling boulders.
- Mounts inside Sch. 40 PVC FIPT fittings to light the stream of water from inside plumbing.
- Small diameter drivers are isolated 18" from light for optimal heat dissipation and fit through 1" conduit.
- LED units inside lights are easily replaceable.
- Warm White matches 2800° Kelvin temperature of halogen and incandescent lighting.
- Spout Lights feature 20' power cord and quick-connect plug for easy installation.
- Flat 2-wire cord on Warm White can be stripped and tied into existing systems.
- InfiColor Smart Module and App (not included) unlock the full potential of Color Changing lights.
- Color Changing Lights connect to SOL Lighting with included plug adapter.

Input	Watts	Beam Angle	L x W x H	Item #	List
12 volt AC	2	45 degrees	1 1/2" x 1 1/2" x 1 5/8"	<a href="#">ATL-WWSL2</a>	
InfiColor	2	45 degrees	1 1/2" x 1 1/2" x 1 5/8"	<a href="#">ATL-CCSL2</a>	

### LINEAR LIGHT

- Designed to wash walls, falls and spillways with a wide beam angle.
- Solid brass Bar Light includes dual bases or stainless steel L-brackets to mount to any hard surface.
- Mounted light rotates 30° in either direction for versatility in directing illumination.
- Warm White matches 2800° Kelvin temperature of halogen and incandescent lighting.
- Bar Lights feature 20' power cord and quick-connect plug for easy installation.
- Flat 2-wire cord on Warm White can be stripped and tied into existing systems.
- InfiColor Smart Module and App (not included) unlock the full potential of Color Changing lights.
- Color Changing Lights connect to SOL Lighting with included plug adapter.

Input	Watts	Beam Angle	L x W x H	Item #	List
12 volt AC	5	120 degrees	11 1/2" x 5/8" x 1 1/2"	<a href="#">ATL-WWBL5</a>	
InfiColor	5	120 degrees	11 1/2" x 5/8" x 1 1/2"	<a href="#">ATL-CCBL5</a>	

## POND LIGHTING

- Atlantic's Single and Triple Pond Light Kits come complete with everything needed to illuminate waterscapes and the surrounding landscape.
- Triple Light Kit includes 12' cord from transformer to junction plus 8' to each light.
- Warm White Pond Lights feature removable photocell light sensor with built-in memory.
- Light sensor turns lights on at dusk, off after 6 hours, even if photocell gets covered.
- Color Changing Pond Lights include new single-zone InfiColor Smart Module to unlock the full potential of Color Changing Lights.

Input	Watts	Beam Angle	L x W	Item #	List

## INFI-COLOR SMART MODULE & APP

The InfiColor Smart Module and mobile application at the heart of the Color Changing Lighting System allow users to program custom color sequences and transitions, set sequence timing and daily scheduling and unlock all RGB options on any Apple or Android mobile device. The InfiColor Smart Module now controls three individual zones via Bluetooth® mobile application and is compatible with all Atlantic Color Changing Lighting and Color Changing Colorfalls, past and present, with simple adapters included with every Module. The Atlantic Lighting System – the best has just gotten better.

- InfiColor Smart Module and App unlock the full potential of Color Changing Lights.
- Smart Module is wirelessly controlled via InfiColor App, no remote necessary.
- The 3 outlets can be synced and linked as a single zone or 3 zones may be controlled individually.
- Each outlet can control up to 40 watts of Color Changing Lighting for a total of 120 watts per module.

## BLUETOOTH INFI-COLOR APP

Makes custom colors, sequences, transitions, timing and daily scheduling of your Atlantic Color Changing Lighting or Color Changing Colorfalls accessible on any Apple or Android mobile device. Best of all, the InfiColor App eliminates the need for a separate remote control!

- Select any or all of the three zones to control.
- Choose any color visually or create a custom color with RGB sliders.
- Combine and save custom color sequences as favorites.
- Adjust brightness of sequences and solid colors.
- The three zones can be independently named and scheduled.

## LIGHTING WIRING: QUICK CONNECT WIRING

- Compact inline 4-outlet Block Splitters for Warm White and Color Changing simplify connections and mount on flat surfaces to neaten and organize wiring.

Input	Item #	List
12 volt AC	<a href="#">ATL-WWBSX4</a>	
InfiColor	<a href="#">ATL-CCBSX4</a>	

## EXTENSION CORD

Input	Length	Item #	List
12 volt AC	20'	<a href="#">ATL-WWEXT20</a>	
InfiColor	20'	<a href="#">ATL-CCEXT20</a>	

## CORD SEAL

- Fitting with expanding rubber core fits inside 1 1/2" socket fittings to create a leak-proof seal around 1/8" - 3/8" cords/
- Used to pass pump and lighting cords in underwater bulkhead or conduit connections through reservoir walls.

Hole Size	Item #	List
1 1/2" Sch 40 socket fitting	<a href="#">ATL-CSEAL15</a>	

## WIRING KITS & TRANSFORMERS: INFI-COLOR WIRING KIT

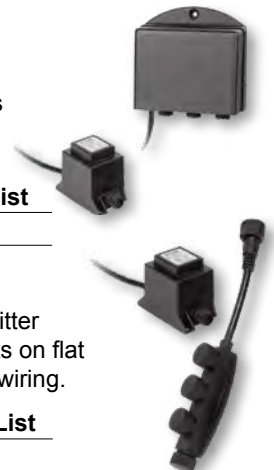

- Powers and connects up to three Color Changing Lights.
- Can be synced and linked as a single zone, or three zones may be controlled individually.
- Includes removable weatherproof caps for unused outlets.
- 30 watt solid state Transformer is fully weatherproof for worry-free outdoor installations.
- Add a larger Transformer and additional wiring components (not included) to power up to 120 watts of Color Changing Lighting, 40 watts per zone.

Input	Item #	List
120 volt AC	<a href="#">ATL-CCSM30X3</a>	

## WARM WHITE WIRING KIT

- Compact inline 4-outlet Block Splitter simplifies connections and mounts on flat surfaces to neaten and organize wiring.

Input	Item #	List
120 volt AC	<a href="#">ATL-WW30X4</a>	

# WAC

## LANDSCAPE LIGHTING

### 12V SUBMERSIBLE TAPE LIGHTING

Flexible tape light with UV stabilized silicone seals that protect against water and dusts.

- Submersible up to 5 feet.
- Maximum of 40 ft per run to stay within 5 amps.
- Flexible linear lights maybe cut to desired length at the end of the run.
- Various lengths may be joined together with IP68 rated connectors.
- UV-stabilized silicone seals and protects the tape sections.
- Integrates with other landscape lighting products using the same transformer.

Copper Test Strip	50		<a href="#">ATL-TRIONTS</a>

### AQUA XTREME

A convenient liquid, single-phase, full-function water conditioner for use in koi and goldfish ponds. Use when: conditioning new water for ponds; adding water, fish or plants to ponds; and transporting koi and goldfish.

- Instantly ages pond water.
- Full functioned buffered water conditioner.
- Removes chlorine/chloramines & ammonia.
- Detoxifies heavy metals and Nitrite.
- Boosts alkalinity.
- Adds essential electrolytes.
- Adds a slime-coat replacer to reduce stress.

Treatment Volume	Size	Case	Item #	List
960 g	16 oz	12	<a href="#">ML-XTP16</a>

## MICROBE-LIFT PL BACTERIA

The #1 pond product requested by name!

Specially formulated for water garden ponds. It is a 100% natural and safe beneficial bacteria that will not harm fish or plants.

- Reduces ammonia and nitrogen levels.
- Reduces noxious odors caused by algae, fish waste, leaves, etc.
- Improves dissolved oxygen levels.
- Dissolves away organic sludge and slime.
- Creates a healthy pond environment, promoting faster fish growth.
- Microbe-Lift Bacteria works in water temps below 12°C and will not lose effectiveness if frozen; bacteria will retain viability after thawing.

Size	Case	Item #	List
1 pt.	24	<a href="#">ML-10PLP</a>

## SLUDGE AWAY

Formulated specifically for the removal of organic bottom solids that are slow to degrade.

- 80% faster than competitive products.
- Binds phosphate.
- Organic and microbial based.
- 100% active ingredients.
- Helps to improve pond clarity.
- Disperses quickly.
- 100% biodegradable.
- Provides "rapid and natural sludge and muck removal".
- Recommended for use with Microbe-Lift PL.

Size	Case	Item #	List
1 qt	12	<a href="#">ML-SAQ</a>	
1 gal	4	<a href="#">ML-SAG</a>	
5 gal	1	<a href="#">ML-SA5G</a>	

## PBL PROFESSIONAL BLEND BACTERIA

MICROBE-LIFT-PBL is a blend of microbes that contain specially formulated strains of bacteria manufactured for use by landscape, irrigation & pond professionals.

- Keeps your ponds clean & clear.
- Reduces ammonia and nitrogen levels.
- Remains effective over a wide range of pH conditions.
- Significantly reduces noxious odors caused by dead algae, fish waste.
- Improves dissolved oxygen levels.
- Reduces buildup of bird droppings, fish feed, and dead leaves.

1 gallon per 100,000 gallons is the usual initial dosage rate.

Size	Case	Item #	List	Size	Case	Item #	List
1 gal	4	<a href="#">ML-10PBLG</a>		55 gal	1	<a href="#">ML-10PBL55G</a>	
5 gal	1	<a href="#">ML-10PBL5G</a>		<i>Dosage rates vary from pond to pond.</i>			

## SPRING/SUMMER CLEANER

A Spring/Summer approach to the proper organic balance in ponds. Accelerates the breakdown of leaves, twigs, and other accumulated dead organic waste.

- Helps jump start a pond in the spring.
- Reduces buildup of dead leaves and residual organic sediment.
- Natural nontoxic and non-caustic.
- Each box contains: (8) 2 oz. water soluble packets of cellulose enzymes and hyper cellulose-producing bacteria.

Size	Case	Item #	List
1 lb.	12	<a href="#">ML-10SSC</a>	

## POND SHOCK

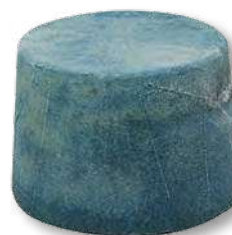

CrystalClear PondShock is a great alternative to chemicals to clear your pond water fast. The organic ball contains billions of all natural, live bacteria and enzymes that are designed to rapidly break down ammonia, nitrites and organic waste.

Treats up to	Item #	List
2,500 gph	CRY-PSB	

## POND BOSS PRO BACTERIA BLOCK

A blend of live bacteria and enzymes specifically designed to improve water quality and reduce unwanted odors. The sludge layer is most often responsible for undesirable odors and low oxygen levels.

pond boss  
**The Block**  
5 lb. Bacteria Maintenance

- Treats up to 5 acre-feet of water over the course of 60 days.

Item #	List
<a href="#">PB-CBBPR5</a>	

## AUTUMN PREP BACTERIA

Specially formulated for late fall and winter use! Microbe-Lift A/P helps to accelerate the decomposition of leaves, scum, sediment, and other organic matter during the fall and winter months. Microbe-Lift A/P will also jump start your pond into a healthier environment in the spring.

- Helps maintain a healthy immune system in your fish during winter months.
- Reduces buildup of leaves and sediment all winter.
- Effective in dark conditions (under ice and snow).

Size	Case	Item #	List
1 qt	12	<a href="#">ML-AUTPREP</a>	
1 gal	4	<a href="#">ML-AUTPREPG</a>	

## BARLEY STRAW EXTRACT + LIQUID PEAT

An environmentally responsible, cost efficient pond conditioner that is a clean, easy, natural and organic approach to a healthy pond environment.

- Goes to work on contact.
- Organic peat softens pond water-reducing Nitrate and Phosphate levels.
- Contains natural buffering agent.
- **One bottle is equivalent to multiple barley straw bales.**

Size	Case	Item #	List
8 oz.	12	<a href="#">ML-CBSE250</a>	
16 oz.	6	<a href="#">ML-CBSE500</a>	
32 oz.	6	<a href="#">ML-CBSE1L</a>	
1 gal.	4	<a href="#">ML-CBSE1G</a>	

## BARLEY STRAW PELLETS

Highly effective in the control of algae. Barley straw pellets work faster, produce less mess, and are easier to apply than other barley products.

- Dissolves quickly.
- Buffers pH.
- Includes added peat and humates.
- Safe for use with all other bacteria products.
- Most effective when placed in shallow water (3') with sunlight and good circulation.

Size	Case	Item #	List

## OASE PONDOVAC 5

Now even more powerful, the multi-function PondoVac 5 vacuums thoroughly and effortlessly removes debris and silt from ponds or pools, or from wet floors of any type. Thanks to the integrated wastewater pump the dirty wastewater can be optimally drained off without interruption to the suction, saving you the trouble of waiting for the vacuum to empty. Large wheels with whisper tires ensure stable movement through rough terrain as well as low-noise when in operation. The robust aluminum suction tubes, along with a transparent suction tube, permit precise and convenient vacuuming. Including an extensive nozzle package and suction hose/drain hose fittings.

- Pond and pool vacuum for uninterrupted, full power cleaning.
- The suction pump runs simultaneously, with the integrated waste pump, which empties the container continuously during use.
- On the outlet side, the PondoVac 5 has a plastic quick connect for a reliable and watertight seal, and easy removal for storage.
- Larger particles such as pebbles or leaves are retained in the pre-filter bag. The zippered bag makes for easy emptying.
- Larger wheels (6 in.) ensure stable movement through rough terrain as well as low-noise when in operation.
- Highly efficient suction depth of 7.5 ft. due to high performance 1800 W motor with optimized blade design.
- Suction capacity up to 2100 gal/h, depending on the implementation conditions.
- **Limited Warranty:** 2 years.

Max. Suction Depth	Suction Hose	Discharge Hose	Watts	Cord	Item #	List

Powerful Discharge Pump

Quick Disconnect

Large Commercial Wheels

Rock Bag

Fine Mesh Screen

## OASE PONDOVAC 4

**The best-selling, patented pond vacuum that doesn't take a break!**

Many pond maintenance needs can be addressed by removing sludge and debris build-up around the pond. The PondoVac 4's dual-chamber suction system provides continuous suction and makes the necessary, but bothersome task of cleaning the pond from sludge, fish waste, decaying vegetation and other floor sediment easy and quick.

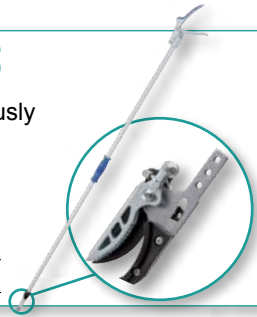

- Includes: 4 suction tubes (aluminum and 1 clear), string algae nozzle, broadened adjustable floor nozzle, wet suction brush, area nozzle, brush nozzle, debris collection bag, 16' suction hose and 8' discharge hose.
- Built in handle and wheels for easy portability.
- **Limited Warranty:** 2 years.

Max. Suction Depth	Suction Hose	Discharge Hose	Watts	Cord	Item #	List
7.5'	16'	8'	1800	13'	<a href="#">OAS-50409</a>	

## OASE 2-IN-1 POND SCISSORS

- 2 in 1 pond scissors that simultaneously hold the cut plants when cutting.
- The head with adjustable work angle protects the pond liner from cuts and enables convenient work.

Handle	Item #	List
5'	<a href="#">OAS-46970</a>	

## OASE EASY PICK POND PLIERS

- Premium pond pliers for grabbing and removing cuttings or leaves in and around the pond.
- Length can be easily adjusted to 6.5'.
- For easy pond care - no need to get wet.
- Rubberized gripper for secure hold.
- Rubber covers for the grip arm are available as spare parts.

Telescopic Handle	Item #	List
6.5' Max.	<a href="#">OAS-42764</a>	

## OASE PONDNET

- Great for removing unwanted debris.
- Coated frame protects pond liner and fish.
- Telescopic handle extends up to 5.2'.

Handle	Item #	List
5'	<a href="#">OAS-46934</a>	

## HEAVY DUTY NET W/ EXTENDABLE HANDLE

A durable pond net designed for general maintenance and handling pond fish. The soft, coarse mesh prevents damage to fish fins and scales. The extendable handle makes it easy to skim those hard-to-reach areas in your pond.

Handle	Item #	List
36"-69"	<a href="#">AQS-98560</a>	

## ATLANTIC BIO BALLS

Extremely durable, lightweight Bio-Balls that are easy to clean and reduce channeling. Each ball has nearly 25 square inches of surface area for bacterial colonization.

Quantity	Size	Item #	List
150	1 1/2"	<a href="#">ATL-BB15</a>	

## MATALA FILTRATION MEDI

A high number of interstitial spaces in the tri-dimensional matrix of the filter media promotes early and even bacteria growth. Easy cleaning. Easy to cut.

	Density	Size	Item #	List
	Black	Low	48"x39"x1.5"	<a href="#">MAT-SBLK</a>

## POND UNDERLAY

Underlay is a black polypropylene, nonwoven, needle-punched fabric. It may be used as a separator mat (under EPDM membrane), as a drainage filter fabric, or as a protection stone mat above the membrane.

	Item #	List
6 oz 7.5' x 100'	FI-UL75100	
6 oz 7.5' X 300'	FI-UL75300	

## QUICKSEAM ONE-SIDED TAPE

Ideal for covering & protecting EPDM seams, with adhesive on one side that can be easily used to hold EPDM seams together. It also works great for repairing tears, holes, and leaks of all varieties.

	Case	Item #	List
6" X 25'	8	<a href="#">FI-RBT025</a>	
6" X 100'	2	<a href="#">FI-RBT100</a>	

## LINER PATCH KIT

Quick, easy to use kit for repairing minor damage to your rubber pond liner.

### Included:

- Roller & scrubbing pad.
- Pair of disposable gloves.
- 2 - 6" x 6" QuickSeam patches.
- 2 ounce bottle of Quick Prime.
- Complete instructions on package.

Case	Item #	List
10	<a href="#">FI-RRK</a>	

## QUICKSEAM TWO-SIDED TAPE

For in between two pieces of liner. Can be used with cover tape for a double seal.

	Case	Item #	List
3" X 25'	16	<a href="#">FI-RST025</a>	
3" X 100'	6	<a href="#">FI-RST100</a>	

## QUICKPRIME PLUS

Dramatically improves bonding of liner to tape. A must when joining two pieces of liner.

	Case	Item #	List
Qt	12	<a href="#">FI-QPPQ</a>	
Gal	4	<a href="#">FI-QPPG</a>	

## SPRAY ADHESIVE/PRIMER

This specially designed, web spray contact adhesive has been formulated to both prime and adhere Firestone PondGard EPDM membranes to a vertical solid smooth substrate or wall in one step.

	Case	Item #	List
22.4 oz can	12	<a href="#">FI-SAP</a>	

## QUICKSEAM PATCH

A 6" diameter circular patch with adhesive backing for quick repair of small cuts and punctures.

	Case	Item #	List
	100	<a href="#">FI-PPI</a>	

## PIPE BOOTS

Firestone Pipe Flashings are designed to seal round penetrations through EPDM pond liners. For pipe penetrations from 1-6" in diameter. Includes stainless steel gear clamp.

	Size	Case	Item #	List
Small	1/2"-2 1/2"	10	<a href="#">FI-PBM</a>	
Large	1"-6"	10	<a href="#">FI-PBU</a>	

## LAP SEALANT

A rubber based sealant used to seam exposed membrane edges to provide additional waterproofing protection. 12 oz. tube seals 20 lineal feet and is applied using a standard caulking gun. Advanced formula has better waterproofing capabilities.

	Case	Item #	List
12 oz	28 / pail	<a href="#">FI-RLS</a>	

## BLACK SILICONE SEALANT

Ideal for sealing joints where liner attaches to filters, including the BioFalls snouts and skimmer faceplates. Aquascape silicone is fish safe, black in color, and easy to use.

Item #	List
10.1 oz	<a href="#">AQS-29186</a>

## PROFESSIONAL FOAM GUN CLEANER

Makes working with waterfall foam easier than ever. This cleaner will work to flush the foam gun clean of any foam or debris, allowing the gun to work like new again.

Item #	List
<a href="#">AQS-22011</a>	

## PROFESSIONAL BLACK WATERFALL FOAM

Easily fill joints and gaps between rocks and boulders, maximizing water flow in streams and waterfalls. Dries fast, lasts long, designed to create an air and moisture-tight seal for maximum foam yield and minimal waste.

Item #	List
<a href="#">AQS-30096</a>	

## RTV SILICONE SEALANT

Black RTV silicone sealant is used to create a watertight seal where liner is attached to filtration components.

Size	Item #	List
2.8 oz Tube	<a href="#">ATL-SN2800</a>	
10.3 oz Cartridge	<a href="#">ATL-BS10</a>	

## FLOATING THERMOMETER

- Injection molded inner body for increased accuracy.
- Ideal for knowing when to feed fish.

Item #	List
<a href="#">PM-T</a>	

## TERMINATION BAR

Use this aluminium Termination Bar any time that EPDM liner needs to be securely attached to concrete, wood, steel, etc. Bar is pre-punched for easy attachment. Trim off excess liner above termination bar then fill channel along top with Lap Sealant for a long lasting, waterproof seal.

Length	Case	Item #	List
10'	50	<a href="#">FI-TB10</a>	

## SEAM ROLLER

- 3" (76mm) Rubber Roller.

Item #	List
<a href="#">T-T37350</a>	

## BLACK ROCKIN FOAM

Industry Best!

An excellent foam product specifically designed for Water Gardening applications. Designed by professionals in the industry.

- Minimal Expanding Foam.
- Better density for secure rock placement and design.
- Better control during application.
- Patented dispersing trigger.
- Less waste - less to trim away.
- Reusable can which dispenses in all directions.
- Made from carbon for the black colour; not dye.
- Reduces ultraviolet deterioration of foam.
- Safe for Aquatic Plants and Animals.

Case	Item #	List
24oz can / 20oz Foam	12	<a href="#">FO-BSF</a>

## ATLANTIC BLACK WATERFALL GUN FOAM

An expandable foam sealant used to stabilize stones, fill voids and seal joints during waterfall construction. 29oz. cartridges and foam guns are indispensable tools for professionals.

Case	Item #	List
29oz can Gun Foam	12	<a href="#">ATL-LF1300</a>
Foam Gun		<a href="#">ATL-LF1315</a>

## POND SEALANT

- Natural stone colour.
- Moisture curing high performance polyurethane sealant with permanent elasticity.
- Suitable for non-chlorinated water immersion.
- Great for filling cracks and stopping leaks.

Case	Item #	List
30	<a href="#">SON-NP1</a>	

## ATLANTIC POND DE-ICER

- Pond de-icers maintain a hole in ice to allow the exchange of oxygen and other gases in wintery conditions.
- The Pond De-Icer allows oxygen to diffuse into pond water sealed off by ice, while toxic carbon dioxide and methane from decomposing organics diffuse out.
- Internal thermostat turns heater on just above freezing and off as water warms for fully automatic operation.
- Indicator light shines blue to show the De-icer is in standby mode when plugged in with water temperature above freezing.
- Indicator light shines green to show water temperature is below freezing and De-icer is in operation.

Watts	Cord	Item #	List
300	20'	<a href="#">ATL-PD300</a>	

## OASE FLOATING FOUNTAIN W/ LIGHTS

A beautiful water accent that aerates and decorates a large body of water. The fountain is an energy efficient product with 1/4 HP and quality constructed materials that provide maximum durability.

- For ponds up to 1/4 acre.
- Aerates and decorates large ponds.
- 3 fountainheads included (Trumpet, Single-Tier, & 3-Tier).
- 3 - 1 watt, LED lights with dusk-to-dawn sensor.
- 150' mooring line included.
- Minimum operating depth of 2.5'.
- **Limited Warranty:** 3 years.

LED Lights	Voltage	Watts	Cord	Item #	List
3 - 1 watt	120	130	50'	<a href="#">OAS-45383</a>	

## POND JET FLOATING FOUNTAIN

A floating fountain is ideal for those who want to add a special effect to an existing pond without much installation or for ponds that vary in water level.

The Pond Jet floating fountain is ready to connect and can be installed in minutes. Additional nozzle patterns can be installed.

- Spray 10'H x 10'W with included nozzle.
- Add a frothy nozzle for a different look - Page 9.
- **Limited Warranty:** 2 years.

Voltage	Watts	Cord	Item #	List
120	260	75'	<a href="#">OAS-54019</a>	

## POND JET LIGHT KIT

This light set for the Oase PondJet floating fountain consists of 3 Lunaqua 10 halogen lights (50W each), an underwater transformer and mounting brackets.

- **Limited Warranty:** 2 years.

Cord	Watts	Item #	List
150'	150	<a href="#">OAS-51071</a>	

## VFX AERATING FOUNTAINS

**Complete:** Comes with control panel, GFI, photo-eye for optional light kit, power cord, and mooring lines.

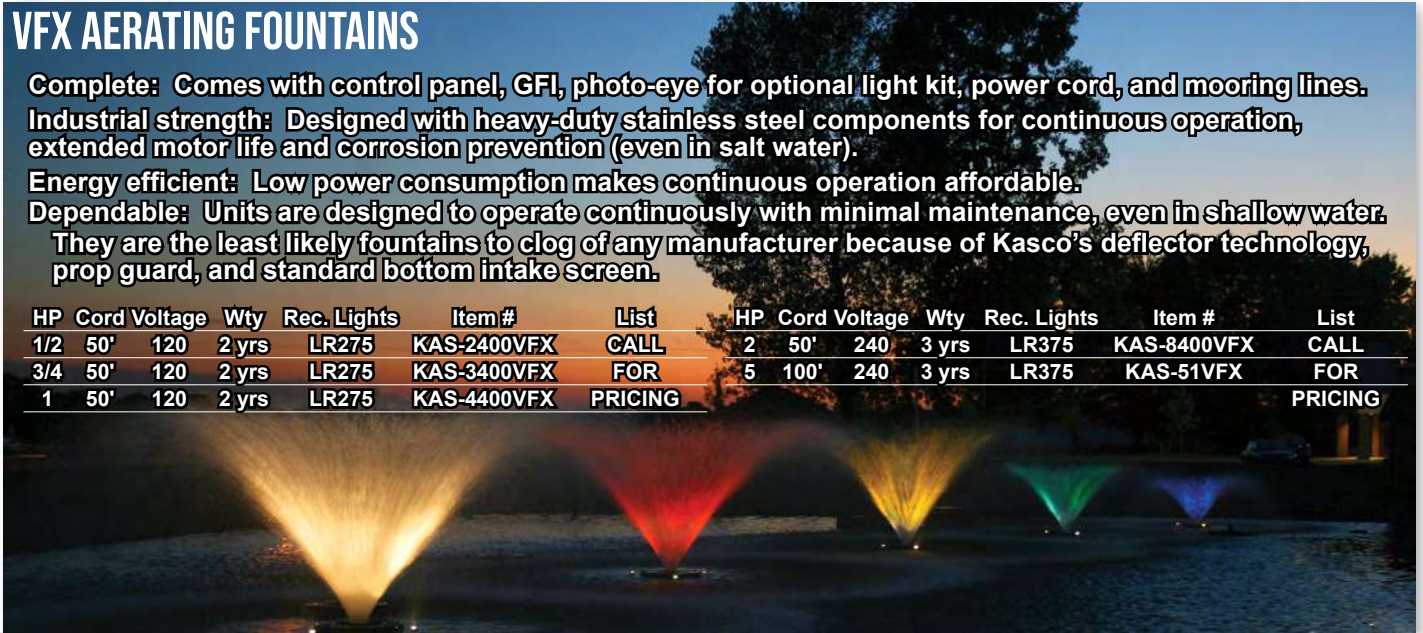

**Industrial strength:** Designed with heavy-duty stainless steel components for continuous operation, extended motor life and corrosion prevention (even in salt water).

**Energy efficient:** Low power consumption makes continuous operation affordable.

**Dependable:** Units are designed to operate continuously with minimal maintenance, even in shallow water.

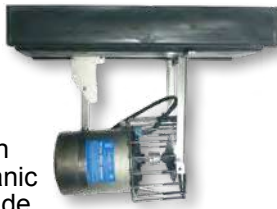

They are the least likely fountains to clog of any manufacturer because of Kasco's deflector technology, prop guard, and standard bottom intake screen.

## WATER CIRCULATORS / DE-ICERS

The Kasco Circulator offers an economic and efficient way of moving stagnant water. This will greatly benefit your aquatic environment by limiting mosquito reproduction, introducing oxygen, eliminating thermal stratification and accelerating the breakdown of organic matter. These units perform across a wide range of depths from 2.5' up to 18'. Unit comes complete with motor & prop, horizontal float kit, 50' cable, 2-50' mooring lines.

- Salt Water Compatible.
- Prevent winter kill and protect structures from ice damage - down to -30 degrees Fahrenheit.
- Great for moving and collecting noxious floating plants.
- Multiple motor mounts allow for five different angles, depending on water depth.
- 1/2, 3/4 & 1 HP models available.

## HIGH OXYGEN POND AERATORS

Add the most oxygen to your pond with an industrial strength Pond Aerator. Designed for the toughest jobs, high oxygen pond aerators are ideal for Aquaculture, Commercial, Waste Water, and or Agriculture applications.

- Provides high oxygen transfer rates (3 lbs of oxygen per horsepower per hour) at affordable costs.
- Operates in as little as 15" of water.
- Includes float and mooring ropes (control box and bottom screen optional).
- 1/2, 3/4, 1, 2, 3, & 5 HP models available.

## ROBUST-AIRE AERATION SYSTEMS

- No electricity in the water. There are no motors or electrical components in the water and no restrictions on swimming, boating, or fishing while the unit is operating.
- Easy to maintain. Most maintenance and inspection is performed from shore at the compressor enclosure.
- Energy efficient operation. Robust-Aire circulates the most water with the least energy expended. Our compressors are energy efficient and Robust-Aire diffusers produce a superior amount of water flow, exceeding other models by 10 to 40 percent.
- Remote installation. Electrical access near the pond may not be feasible or you simply may want to locate the system away from the pond setting. Air can be delivered to the system from 1/4 mile away.
- Manufactured by Kasco Marine. Known for manufacturing high-quality, energy-efficient water management equipment for over 40 years, Kasco Marine is a name you can trust.

### Each Kit Contains

- High Efficiency Piston Compressor.
- Sure-Sink Weighted Tubing.
- Air Diffuser Assembly(s).
- Fittings and Clamps.
- Available in 110 or 240 Volt.

\* Optional enclosures are available.

\* Works most efficiently at depths of 8' and deeper.

## KASCO WATERGLOW RGB LED LIGHTING

Kasco Marine is pleased to offer Waterglow RGB LED Lighting, the ultimate decorative and/or event lighting for your J or VFX fountains. With the capacity to create 9 different colors, this remote control operated unit also allows the user to adjust brightness levels, has three sequencing patterns, and can be coupled with any music playing device that supports a 3.5mm Y connector (not included with unit.) This affords the user the ability to set the RGB light sequencing to the rhythm of the music!

- 9 total colors (white, warm white, red, green, blue, orange, yellow, cyan, magenta)
- Brightness Levels: each static color can be adjusted to 100%, 50%, 25%, 12% and 6%
- 3 Automatic Sequencing Modes: Flash (jump to next color), Bloom (transition from color to color), and smooth transition (smooth transition from color to color).
- Rhythmic Sequencing: Music input on the controller allows you to follow the rhythm of music played through your phone, tablet, laptop and more! Settings include fast change, medium and smooth transition.

Available in a 3 fixture (compatible with 1/2HP – 1HP) or 6 fixture (2HP – 3HP) kit, this color-changing RGB Lighting is built with the same durability you expect from Kasco.

- 2 Year Warranty.

Kasco offers several sizes and models of low voltage lighting packages for use with all Aerating Fountain models. A low voltage lighting package added to any Aerating Fountain model will greatly enhance the aesthetics of your pond or lake and extend the enjoyment of your Kasco Aerating Fountain into the evening and nighttime hours.

# Kasco®

## LED LIGHT KITS

Kasco's LED lighting sets are ideal for any 1/2 to 7.5HP fountains.

These LED lights will work on any Kasco fountains above 1/4HP in size.

LED-3125 - This is a standard 3 fixture kit with bracketing to fit the floats. Ideal for 1HP and smaller fountains, the 3 fixture kit will illuminate the patterns on any of these models.

LED-6125 - This is a double set of the LED-3125 for a total of 6 lights including light brackets and the additional float brackets needed for installing on any 2HP to 7.5HP. The complete set includes everything you need to attach and use on these larger fountains and floats for a dramatic lighted display.

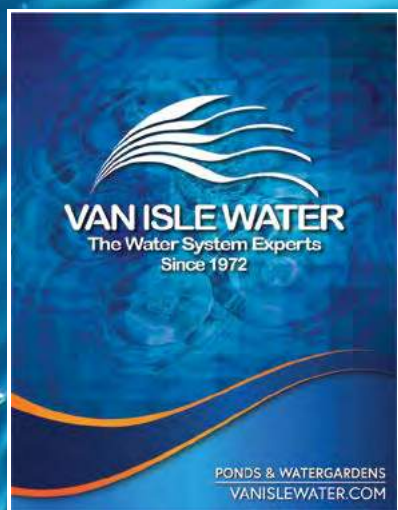

## STAINLESS STEEL LED LIGHT KITS

Kasco's stainless steel LED lights feature increased brightness and a more durable design. Rated at nearly 1,700 lumens per fixture, these warm white stainless steel lights are over three times brighter than Kasco's current composite option, providing excellent illumination for any 1/2HP-7.5HP Kasco Fountain or Aerator.

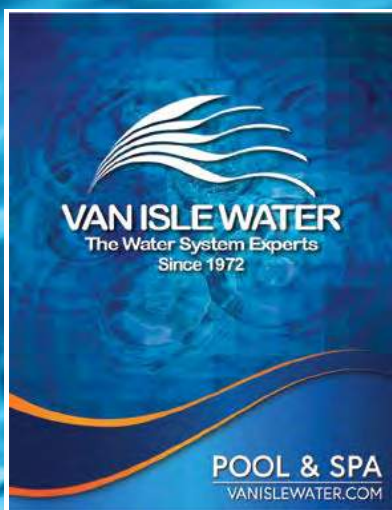

These lights are available in multiple power cord lengths up to 500 ft. At only 19 watts per fixture, the power consumption is a fraction of other lights on the market.
