

# Cast Lighting

OLD WORLD CRAFTSMANSHIP . . . TODAY'S TECHNOLOGY beautiful - durable - innovative - affordable

## ABOUT CAST LIGHTING

### BEAUTY

Solid bronze and copper fixtures &ndash; hand crafted by skilled artisans. Aging beautifully, they blend with nature transforming into a statuesque patina.

### DURABILITY

Solid bronze bodies and stakes, heavy gauge copper stems, marine-grade tincoated wire &ndash; all designed to last a lifetime &ndash; we guarantee it.

### INNOVATION

State-of-the-art transformers power the lights &ndash; high efficiency, unmatched performance and easy to install and maintain.

### AFFORDABILITY

For only a few dollars more than lower quality aluminum fixtures, you can light your home and property with solid bronze and copper fixtures from CAST. Available Cast Lighting Brochures Old World Craftmanship

MR-16

## Bullet Lights

MR-11 This rugged copper and solid bronze MR-11 fixture can be stake or canopy mounted.

MR-16 This rugged solid bronze MR-16 fixture is know as the workhorse of landscape lighting. It is virtually indestructible, weathers to a beautiful patina and survives the harshest of environmental conditions.

## Area/Path Lights Large Mushroom Mini China Hat MR-16

Large Mushroom Solid bronze path/area light provides a soft glare free illumination.

Mini China Hat This ultra-compact and rugged solid bronze path/area light provides a soft glare free illumination. Especially useful in plant containers such as urns and garden boxes. Fixture can be stake or canopy mounted.

MR-16 Solid bronze MR-16 fixture sits on a 20" stem providing a directional light that extends above plant material. New Orleans Savannah Small China Hat

New Orleans Decorative solid bronze path/area light provides a soft glare free illumination.

Savannah Decorative solid bronze path/area light provides a soft glare free illumination. Since illumination is provided directly from lamp and reflected from hat, this fixture provides a brighter illumination than the other path/area lights.

Small China Hat Solid bronze path/area light provides a soft glare free illumination. Small Mushroom

Small Mushroom Solid bronze path/area light provides a soft glare free illumination.

## Other Lights Copper Niche Light Engineered Wall Light MR-16 Copper Tree Light

Copper Niche Light Niche Light features a heavy-gauge copper shroud with solid bronze base and removable reflector.

Engineered Wall Light Attractive wall light constructed of solid bronze with a flat copper bracket for easy flush mounting under capstones, between courses of block and under railings.

MR-16 Copper Tree Light This rugged MR-16 Tree Light features a heavy-gauge copper shroud with a solid bronze base and knuckle. MR-16 Well Light w/Grate Solid Bronze Deck Light Solid Bronze Savannah Light

MR-16 Well Light w/Grate Well light features a solid bronze interior assembly in a stainless steel gimbal. It houses the versatile MR-16 lamp. It differs from the CWLMR16 in that it comes supplied with a solid bronze grate instead of the bronze ring and lens.

Solid Bronze Deck Light This compact and attractive solid bronze deck light is a durable and reliable fixture for wall and post mounting

Solid Bronze Savannah Light This compact and stylish solid bronze deck light is a durable and reliable fixture for wall and post mounting. Wall Light Wall Wash Light Well Light

Wall Light Attractive wall light constructed of solid bronze with copper tabs for surface mounting.

Wall Wash Light Wall wash features a convex borosilicate lens.

Well Light This simple, yet durable, PAR-36 well light features a PVC body and stainless steel gimbal ring.
