

# Pro Series Pond-free

## Fountain Basins

When they were introduced, Atlantic Fountain Basins were already the strongest and best-designed on the marketplace, featuring deep plumbing channels on the top of the basin, easy access pump chambers and external flow adjustment for convenient installation and maintenance. Now they're even better, with new internal buttressing cones for greater rigidity. Count on Atlantic to keep on performing!

### MODELS :

**Model: FB3200**  
**Dimensions:** 32"W x 13"H  
**Max Pump Flow:** 2000 gph  
**Plumbing Size:** (3) ¾" or (1) 1" hose  
**Capacity:** 32 Gallons  
**Application:** Pond-free Fountain

**Model: FB4600**  
**Dimensions:** 46"W x 13"H  
**Max Pump Flow:** 4000 gph  
**Plumbing Size:** (3) ¾" or (1) 1½" hose  
**Capacity:** 67 Gallons  
**Application:** Pond-free Fountain

## Fountain Basin Kits\*

### Part No. FBKIT3

- TW2 pump discharge fittings
- Triton 3-Way Diverter
- 20' of ¾" diameter kink-free hose
- (3) standpipe sealants
- (3) ¾" insert x ¾" socket fittings
- (2) 1½" cord stoppers for conduit sleeves

### Part No. FBKIT1

- TW2 pump discharge fittings
- Single ball valve
- 6' of ¾" diameter kink-free hose
- (1) standpipe sealant
- ¾" insert x ¾" socket fitting
- 1½" cord stopper for conduit sleeve

\* ¾" PVC standpipe & TW2 pump not included

### Pro Series Fountain Basin Model (FB4600) Features:

1. One piece construction provides exceptional strength.
2. Built-in channels simplify installation, allowing the plumbing to be run on top of the basin.
3. (7) molded cones support the top panel.
4. Recessed pocket accepts the Triton 3-Way Diverter. Adjusting the water flow to multiple pieces has never been easier.
5. Recessed pockets allow 1½" conduit sleeves to be installed within the radius of the basin and allow access to pump cords and low voltage wiring when surrounding the unit with pavers.
6. Flat panel for the installation of an AF1000 Auto Fill.

**NEW!**  
**INTERNAL CONE  
 SUPPORT SYSTEM**

# Eco-Rise

The Eco-Rise is a totally new concept in water feature construction. The extremely strong radial structure handles the weight of heavier statuary, vases and columns while providing a broad stable base over Eco-Blox reservoirs. The versatility of the Eco-Rise used in conjunction with Eco-Blox, PV1700 Pump Vault and Triton 3-Way Diverter allows for multiple features in any configuration above odd basin shapes, while keeping plumbing and flow adjustment topside for easy access.

**NEW!**

**Model: ECORISE20**  
**Dimensions: 20"L x 20"W x 3"H**  
**Plumbing Size: 3/4" to 1 1/2"**  
**Max Load: 3000 lbs.**

# Triton 3-Way Diverter

Triton 3-Way Diverter is the only manifold designed exclusively for pond-free fountain installations. The 1 1/2" inlet will not restrict the flow of water into the manifold, thereby delivering maximum volume to each of the 3 outlets. True 'ball' style valves with removable handles enable independent flow adjustment of each outlet. The compact design makes it a perfect fit for installation in all pump vaults and fountain basins.

**Model: TR3WAY**  
**Dimensions: 5 3/8"L x 4 1/2"W x 2 7/8"H**  
**Inlet: 1 1/2" FIPT**  
**Outlet: (3) 3/4" Inserts**  
**Includes: (2) removable "T" handles**  
**Other: Includes full color package**

## How It Works:

### Typical Pond Free Installation
