

Triton Ionizer

Atlantic is pleased to introduce the new Triton Ionizer for Water Garden and Pond-free applications. This low voltage water management system electronically introduces microscopic ions into the water which control organic growth and help keep ponds crystal clear. This mineralized water is not only safe for animals and plants, but actually promotes healthy living conditions in the water. Mineralized water maintains a residual ability to treat organics and is not affected by heat or sunlight, greatly reducing the need for chemical treatments.

 Health Reg. Num. 29581

MAINTENANCE

Triton Ionizer Features:

- Safe for fish and plants
- Low maintenance
- Clears water without the use of harsh chemicals
- Level of mineralization is controlled by the LED panel
- Treats ponds up to 25,000 gallons
- Easily installed in any new or existing water feature
- Cast mineral anodes are self-cleaning
- 1-year warranty

Model: TRION
Description: Electronic Water Clarifier
Application: Pond / Pond-free / Fountain
Voltage: 12 volt
Inlet: 2" Sch 40 PVC
Includes: Outdoor transformer and copper test strips

Alkalinity / PH / Copper Test Strips

Part No: TRION-TS

Triton Ionizer Replacement Anode

Part No: TRION-RA
