

Insta-Light®

Battery pack for low voltage landscape lighting demos

UPLIGHTING SETUP INSTRUCTIONS:

1. Open door of Housing and remove Battery Pack; Insert eight (8) AA batteries following correct polarity (+/-). Return Battery Pack to Housing and close door once complete.
2. Thread landscape light fixture (not included) to the top of the Battery Pack Housing. When using LED fixture, thread connection wire through slots prior to threading on battery pack.
3. Thread landscape light stake (not included) to the base of the Battery Pack housing.
4. Place Stake into ground at desired location.
5. Attach quick release connectors on 12V LED power cord to each of the exposed landscape light wires and connect the DC connector to the battery pack.

DOWNLIGHTING SETUP INSTRUCTIONS:

1. Open door of Housing and remove Battery Pack; Insert eight (8) AA batteries following correct polarity (+/-). Return Battery Pack to Housing and close door once complete.
2. Thread landscape light fixture (not included) to the top of the Battery Pack Housing. When using LED fixture, thread connection wire through slots prior to threading on battery pack.
3. Thread Extension Coupler to the base of the Battery Pack Housing.
4. Thread retractable pole of your choice (not included) to the bottom of the Extension Coupler.
5. Attach quick release connectors on 12V LED power cord to each of the exposed landscape light wires and connect the DC connector to the battery pack.

WARNING: Always take care to insert batteries correctly with regard to polarity (+ and -) marked on the battery holder. Batteries which are installed incorrectly may result in leakage or explosion.

Insta-Light

Catalog #	Description	Selling Unit
75500	Insta-Light	Bag of 1

PRODUCT SPECIFICATIONS

- Thread fixture stake onto base for uplighting, or use extension coupler for downlighting demos
- Use with LED or Laser Light fixtures
- Lightweight, portable construction
- Quickly set up temporary party/event lighting

FEATURES

- Effortlessly demo low voltage (12V) LED & laser light fixtures
- Lock in more sales with leave-behind nighttime demonstrations

PACK CONTAINS

- Battery Pack/Housing
Device requires eight (8) AA batteries (BATTERIES NOT INCLUDED)
- 12V LED Power Cord
- Extension Coupler
