Why Use Pool Perfect?

- eliminates skin & eye irritation
- eliminates strong chemical odors
 - no scum line
 - clean pool filters
- reduced pool maintenance
- makes water feel soft & silky

**Clear, Perfect Water...
Unconditionally Guaranteed!**

Spa Perfect

Why use Spa Perfect Enzymes?

Your spa/hot tub water is constantly absorbing organic material from its environment. Spas/ hot tubs make this problem worse due to the smaller body of water and much higher water temperatures.

What kind of organic material, you ask?

Organic contaminants such as:

- body oils, sweat, (urine...blech!)
- cosmetics & hair care products
 - suntan & sunscreen lotions
 - soaps & deodorant
- scented spa oil products

Recommended

Dosage

1oz. per 100Gal. of
Spa water
