

SAFETY DATA SHEET

PH +

1. IDENTIFICATION								
Product name	:	PH +						
Product code	:	30-92190	Other means of identification	:	Not available.			
Supplier	:	Purity 42, de l'artisan Victoriaville, Quebec G6P 7E3	Manufacturer	:	Manufactured for: Purity 42, de l'artisan Victoriaville, Quebec G6P 7E3			
Identified uses	:	Consumer products: Pool & Spa water treatment product This MSDS is provided as information only. This product is not WHMIS regulated. This product is regulated under CCCR regulation. Packaged as a consumer good.	Uses advised against	:	Only use this product as directed. Read label before using.			
Date of issue (YYYY-MM-DD) : 2016-11-17								
In case of emergency : Emergency phone: CANUTEC (613) 996-6666 (Collect calls accepted)								

2. HAZARDS IDENTIFICATION					
Information in t	Information in this section only concerns the product as supplied. Contact your account manager to get more information on diluted form hazards identification.				
Product Classification	:	EYE IRRITATION - Category 2A			
Signal word	:	Warning Hazard pictograms :			
Hazard statements	:	May cause severe eye irritation.			
Precautionary stateme	<u>nts</u>				
General	:	Read label before use. Keep out of reach of children.			
Prevention	:	Specific protective equipment is suggested for this product. See section 8 for details.			
Response	:	Rinse with water. IF IN EYES: Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.			
Storage	:	No specific measure needed. See section 7 for more information on handling and storage.			
Disposal	:	No specific measure needed. See section 13 for waste disposal information.			
Supplemental label ele	mer	ts : No additional information.			
Other hazards which de classification	Other hazards which do not result in : May form explosible dust-air mixture if dispersed. Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.				

3. COMPOSITION/INFORMATION ON INGREDIENTS					
Substance/mixture : Substance					
Ingredient name	CAS number	% (w/w)			
sodium carbonate	497-19-8	60 - 100			
Occupational exposure limits, if available, are listed in Sect	tion 8.	l			

	4. FIRST AID MEASURES
Description of requ	ired first aid measures
Eye contact	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. If irritation persists, get medical attention.
Skin contact	Flush contaminated skin with plenty of water. Wash clothing before reuse. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Clean shoes thoroughly before reuse.
Ingestion	Rinse mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Inhalation	Move victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if adverse health effects persist or are severe. Maintain an open airway.
Most important sym	ptoms/effects, acute and delayed
Eye contact	Adverse symptoms may include the following: pain or irritation watering redness
Skin contact	No specific symptoms under normal use conditions.
Ingestion	No specific symptoms under normal use conditions.
Inhalation	Adverse symptoms may include the following: respiratory tract irritation coughing
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
See toxicological in	formation (Section 11)

5. FIRE-FIGHTING MEASURES				
Extinguishing media				
Suitable extinguishing media	Use flooding quantities of water.			
Unsuitable extinguishing media	None known.			
Specific hazards arising from the chemical	May form explosible dust-air mixture if dispersed.			
Hazardous thermal decomposition	n products Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides			
Special fire-fighting procedures	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action should be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.			
Special protective equipment for fighters	fire- Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.			

6. ACCIDENTAL RELEASE MEASURES

Personal precautionsNo action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and
unprotected personnel from entering. Do not touch or walk through spilled material. Initiate spill response procedures if required.Personal protectionPut on appropriate personal protective equipment (see Section 8).Cleaning methodContain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in
container for disposal according to local regulations (see Section 13). Use a water rinse for final clean-up.

7. HANDLING AND STORAGE

Handling	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See Section 8 for additional information on hygiene measures.
Storage and Incompatibility	Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<u>Occupational exposure limits</u> None.	
Appropriate engineering controls	Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
Individual protection measures	
Eye/face protection	If operating conditions cause high dust concentrations to be produced, use dust goggles. It is minimally suggested to wear safety glasses while using or handling this product.
Hands and Body protection	It is suggested to wear chemical-reisitant gloves while using or handling this product.
Respiratory protection	It is suggested to wear dust-protection mask for prolonged or intense exposures.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Solid. [Powder.]	рН	11 [Conc. (% w/w): 1%]	Flash point	[Product does not sustain combustion.]
Color	White.	Relative density	Not available.	Melting point	854°C (1569.2°F)
Odor	Odorless.	Viscosity	Not available.	Boiling point	Not available.
Odor threshold	Not available.	Vapor pressure	Not available.	Fire point :	Not available.
Solubility in water :	Not available.	Vapor density :	Not available.	Evaporation rate :	Not available.
Decomposition tempera	ture : Not available		Auto-ignition temperature	: Not available.	
Partition coefficient: n- water	octanol/ : Not available		Flammability (solid, gas)	: Not available.	
Lower and upper explosive (flammable) limits : Not available.					

10. STABILITY AND REACTIVITY Reactivity No specific test data related to reactivity available for this product or its ingredients. Chemical stability The product is stable. Reactive or incompatible with the following materials: Incompatible materials oxidizing materials Conditions to avoid Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Prevent dust accumulation. Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur. Hazardous decomposition products Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. TOXICOLOGICAL INFORMATION

Route of exposure	Routes of entry anticipated: Oral, Inhalation. Routes of entry not anticipated: Dermal.	
	Potential acute health effects	Symptoms
Eye contact	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes. cause eye irritation	Adverse symptoms may include the following: pain or irritation watering redness
Skin contact	No known significant effects or critical hazards.	No specific symptoms under normal use conditions.
Ingestion	No known significant effects or critical hazards.	No specific symptoms under normal use conditions.
Inhalation	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.	Adverse symptoms may include the following: respiratory tract irritation coughing
Toxicity data		

Product/ingredient name	Result	Species	Dose	Exposure	
sodium carbonate	LD50 Ora	D50 Oral Rat 4090 mg/kg		-	
Information on toxicological	effects				
Mutagenicity	No known significar	t effects or critical	hazards.		
Teratogenicity	No known significar	t effects or critical	hazards.		
Developmental effects	No known significar	t effects or critical	hazards.		
Fertility effects	No known significar	t effects or critical	hazards.		

12. ECOLOGICAL INFORMATION

Ecotoxicity data				
Product/ingredient name		Result	Species	Exposure
sodium carbonate		Acute EC50 242000 µg/l Fresh water Acute LC50 176000 µg/l Fresh water Acute LC50 265000 µg/l Fresh water	Algae - Navicula seminulum Crustaceans - Amphipoda Daphnia - Daphnia magna	96 hours 48 hours 48 hours
		Acute LC50 300000 µg/l Fresh water	Fish - Lepomis macrochirus	96 hours
Persistence and degradability	: Unknown	Bioaccumulative potential : Unknown Mobility in soil	: Unknown Other adverse	effects : Unknown

Sensitization

Carcinogenicity

Not available.

No known significant effects or critical hazards.

13. DISPOSAL CONSIDERATIONS								
isposal methods	Dispose content	Dispose content and container in accordance with local, regional and national regulation in force.						
14. TRANSPORT INFORMATION								
	UN number	UN proper shipping name	Transport hazard class (es)	Packing group	TDG Placard			
TDG Classification	Not regulated.	-	-	-				

<u>Additional</u> information See shipping documents for specific information on DOT, IMDG or IATA

15. REGULATORY INFORMATION

<u>Canadian lists</u>	
Canadian NPRI	None of the components are listed.
CEPA Toxic substances	None of the components are listed.
Canada inventory	All components are listed or exempted.
International lists	
United States All components are list	ed or exempted.
